# **ROCKY MOUNTAIN HEALTH MAINTENANCE ORGANIZATION CRISIS SYSTEM PROVIDER ADMINISTRATIVE SERVICES ORGANIZATION AGREEMENT**

This Crisis System Provider Agreement (the “Agreement”) is made and entered into this first day of September 2020 (the “Effective Date”) by and between **Rocky Mountain Health Maintenance Organization, Inc.** (“RMHMO”) and **San Miguel County, Colorado** (“Contractor”). RMHMO and Contractor are collectively referred to in this Agreement as the “Parties.”

## **BACKGROUND**

Currently, there are no mobile crisis services available in San Miguel County. The San Miguel County Sheriff’s Office (the Contractor) will conduct a pilot program operating co-responder services as part of the Colorado Crisis Services network. The 2018 Request for Proposal for Colorado Crisis Services (RFP IHJA 2019000043) permits this proposal, stating “the Offeror shall collaborate with and may include existing Co-Responder and Law Enforcement Assisted Diversion (LEAD) programs as part of the mobile response network in Subcontractor’s Region.” Section IV.B.2.f.vii. Therefore, the Office of Behavioral Health establishes this Co-Responder Pilot (“Pilot”) as a Colorado Crisis Services model of mobile crisis response administered by RMHMO in San Miguel County (referenced in RMHMO’s Contract with OBH, Exhibit F).

## **ARTICLE 2**

### **CONTRACTOR RESPONSIBILITIES GENERALLY**

2.1 Participating in Colorado Crisis System. This Pilot supplements the Contractor’s Peace Officers Mental Health (POMH) Support current grant (18-055) with the Department of Local Affairs (“DOLA POMH Grant”), a separately funded resource, as a mobile crisis response service under the Colorado Crisis Services network.

2.2 SAMHSA Practice Guidelines and Guiding Principles for Crisis Services. Contractor shall follow the Substance Abuse Mental Health Services Administration (SAMHSA) Practice Guidelines and Guiding Principles for Crisis Services in operating crisis services:

- a. Avoid Harm: An appropriate response to mental health crises considers the risks and benefits attendant to interventions and whenever possible employs alternative approaches, such as controlling danger sufficiently to allow a period of “watchful waiting.” In circumstances where there is an urgent need to establish physical safety and few viable alternatives to address an immediate risk of significant harm to the Individual or others, and appropriate crisis response incorporates measures to minimize the duration and negative impact of interventions used.
- b. Person-Centered Interventions: Appropriate interventions seek to understand the Individual, his or her unique circumstances and how that Individual’s personal preferences and goals can be maximally incorporated in the crisis response
- c. Shared Responsibility: An appropriate crisis response seeks to assist the Individual in regaining control by considering the Individual an active partner in, rather than a passive recipient of services.
- d. Addressing Trauma: It is essential that once physical safety has been established, harm resulting from the crisis or crisis response is evaluated and addressed without delay by Individuals qualified to diagnose and initiate needed treatment. There is also a dual responsibility

relating to the Individual's relevant trauma history and vulnerabilities associated with particular interventions; crisis responders should appropriately seek out and incorporate this information in their approaches, and Individuals should take personal responsibility for making this crucial information available (for instance, by executing advance directives).

e. Establishing Feelings of Personal Safety: Assisting the Individual in attaining the subjective goal of personal safety requires an understanding of what is needed for that person to experience a sense of security (perhaps contained in a crisis plan or personal safety plan previously formulated by the Individual) and what interventions increase feelings of vulnerability (for instance, confinement in a room alone). Providing such assistance also requires that staff be afforded time to gain an understanding of the Individual's needs and latitude to address these needs creatively.

f. Based on Strengths: An appropriate crisis response seeks to identify and reinforce the resources on which an Individual can draw, not only to recover from the crisis event, but to also help protect against further occurrences.

g. The Whole Person: An Individual with a serious mental illness who is in crisis is a whole person, whose established psychiatric disability may be relevant but may – or may not – be immediately paramount.

h. The Person as a Credible Source: An appropriate response to an Individual in mental health crisis is not dismissive of the person as a credible source of information – factual or emotional – that is important to understanding the person's strengths or needs.

i. Recovery, Resilience, and Natural Supports: An appropriate crisis response contributes to the Individual's larger journey toward recovery and resilience and incorporates these values. Accordingly, interventions should preserve dignity, foster a sense of hope, and promote engagement with formal systems and informal resources.

j. Prevention: An adequate crisis response system requires measures that address the person's unmet needs, both through individualized planning and by promoting systemic improvements.

2.3 SAMHSA Practice Guidelines and Guiding Principles for Crisis Services. Contractor shall implement the six (6) SAMHSA Guidelines for Trauma-Informed Care in fulfilling its responsibilities under this Agreement, including:

a. Safety: Throughout the Contractor, staff and the people they serve feel physically and psychologically safe.

b. Trustworthiness and transparency: Contractor operations and decisions are conducted with transparency and with a goal of building and maintaining trust among staff, Individuals, and family members of those receiving services.

c. Peer support and mutual self-help: These are integral to the organizational and service delivery approach and are understood as a key vehicle for building trust, establishing safety, and empowerment.

d. Collaboration and mutuality: True partnering and leveling of power differences between staff and Individuals served and among Contractor staff from direct care staff to administrators. There is recognition that healing happens in relationships and in the meaningful sharing of power and decision-making. The Contractor recognizes that everyone has a role to play in a trauma-informed approach. One does not have to be a therapist to be therapeutic.

e. Empowerment, voice, and choice: Throughout the Contractor and among the Individuals served, Individuals' strengths are recognized, built on, and validated and new skills developed as

necessary. The Contractor aims to strengthen the staff's, Individuals', and family members' experience of choice and recognizes that every person's experience is unique and requires an individualized approach. This includes a belief in resilience and in the ability of Individuals, organizations, and communities to heal and promote recovery from trauma. This builds on what Individuals, staff, and communities have to offer, rather than responding to perceived deficits.

f. Cultural, historical, and gender issues: The Contractor actively moves past cultural stereotypes and biases (e.g., based on race, ethnicity, sexual orientation, age, geography), offers gender-responsive services, leverages the healing value of traditional cultural connections, and recognizes and addresses historical trauma.

2.4 Covered Services. Contractor agrees to provide Individuals **Mobile Crisis Services** as defined in Article 3 of this contract, that are consistent with accepted standards of quality care, all clinically necessary crisis and behavioral health treatment services that are Covered Services, as further defined in this paragraph, subject to the ability of Contractor to provide appropriate services. Contractor shall ensure Individuals who receive crisis services through the aforementioned Modalities are connected to appropriate ongoing services as identified in the Service Level Agreement (Exhibit A). Individuals who receive crisis services through the aforementioned Modalities are connected to appropriate ongoing services. In addition to the responsibilities specified in this Article 2, to the extent Contractor will provide: (i) **Mobile Crisis Services**, Contractor shall comply with the requirements of Article 3 of this Agreement.

2.5 Independent Audit. The Contractor and any of its subcontractors who receive more than three hundred thousand dollars (\$300,000.00) in reimbursement from RMHMO for services as pursuant to this Agreement shall make a provision for an Independent Financial Audit to be performed annually. To the maximum practicable extent, the audit shall identify, examine, and report the income and expenditures specific to operation of the services described in this Agreement. The Contractor shall furnish a copy of this audit report no later than six months after the close of the Contractor's fiscal year. A waiver from the Contractor requesting a time extension on the final audit must be approved by RMHMO. Contractor agrees to comply with the qualified or disclaimer opinion rendered by the independent auditor on financial statements or the negative opinion on peer review reports.

2.6 Annual Super Circular Audit. If the Contractor expends federal awards from all sources (direct or from pass-through entities) in an amount of \$750,000 or more during its fiscal year, then the Contractor shall have an audit of that fiscal year in accordance with Office of Management and Budget (OMB) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, set forth at 2 C.F.R. § 200, *et seq.* If the Contractor expends federal awards from all sources in an amount of \$750,000 or more during its fiscal year, then the Contractor shall furnish one (1) copy of the audit report(s) to OBH and also be submitted to the Federal Audit Clearinghouse within 30 days after the Contractor's receipt of its auditor's report or 9 months after the end of the Contractor's audit period, whichever is earlier. If the Contractor passes through federal funds to a subcontractor, all of the pass-through entity responsibilities outlined in OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards then apply to the Contractor. The Contractor agrees to comply with OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards pass-through entity responsibilities including notification to RMHMO that Contractor has sub-recipients.

2.7 Unit Cost Report. Contractor shall complete and submit a unit cost report to OBH in accordance with OBH accounting and auditing guidelines by November 30th each year.

2.8 Implementation of RMHMO's Policies and Procedures. Contractor agrees to implement the clinical standards, clinical protocols, and best practices in RMHMO's Provider Manual, including

the statewide, standardized policies and procedures mandated by OBH (“Statewide Policies and Procedures”), as applicable to this Pilot, to ensure the delivery of uniform care across Colorado. Such protocols, policies, and procedures may include, but are not limited to the following:

- a. Medical clearance when an Individual requires a higher level of care.
- b. Addressing the following presenting issues: Acute Intoxication; acute medical issues; and violent or aggressive behavior despite efforts to de-escalate.

- e. Responding to children, adolescents, and families in crisis, as well as Individuals with Intellectual and Developmental Disabilities and caregivers in crisis, including coordination with county child welfare and Adult Protective Services.
- f. Coordinating Clinically Appropriate Transportation for Individuals between levels of care throughout the Crisis episode, leveraging all payer sources, including Medicaid.

2.9 Implementation of RMHMO’s Training Plan. Contractor agrees to implement the training plan collaboratively developed by Contractor and RMHMO. Such written notice shall describe the default and the procedure by which the Party can cure the default, if any. In the event this Agreement is terminated for cause, RMHMO will only reimburse the Contractor for accepted work or deliverables performed up to the date of termination. In the event this Agreement is terminated for cause, final payment to the Contractor may be withheld in RMHMO's sole discretion until completion of a final audit. Notwithstanding the above, the Contractor may be liable to RMHMO for damages that RMHMO incurs related to the Crisis System Contract due to Contractor's failure to comply with this Agreement.

5.3 Termination for Convenience. RMHMO or the Contractor shall have the right to terminate this Agreement by giving the non-terminating party at least ninety (90) days' prior written notice. If notice is so given, this Agreement shall terminate on the expiration of the specified time period, and the liability of the Parties hereunder for further performance of the terms of this Agreement shall thereupon cease, but the Parties shall not be released from the duty to perform their obligations up to the date of termination.

5.4 Limitation on RMHMO's Right to Terminate. The Parties agree that such arbitration will be before a panel of three (3) arbitrators, with each party selecting one arbitrator and those two arbitrators jointly selecting the third. Such arbitration will be conducted in accordance with the rules and procedures of the American Health Lawyers Association ("AHLA") then in effect. dispute between the parties, jurisdiction and venue shall lie in the 7<sup>th</sup> Judicial District of San Miguel County, Colorado.

7.8 Headings. The headings of the sections and subsections of this Agreement are inserted solely for ease of reference and shall not in any way effect the meaning or interpretation of this Agreement.

7.9 Amendment. This Agreement may not be amended or modified except by a written instrument executed by both Parties.

7.10 Non-Assignment. Neither party shall have any right to assign the benefits or delegate the obligations contained in this Agreement without the prior written consent of the other party. Any attempt to assign without the prior written consent of the other party shall be void. Subject to the foregoing, this Agreement shall be binding upon and inure to the benefit of the parties and their respective heirs, successors, legal or personal representatives, and permitted assigns.

7.11 Non-Discrimination. 7.12 Entire Agreement. This Agreement constitutes the entire understanding and agreement between the parties with respect to its subject matter and supersedes all prior agreements or understandings, whether written or unwritten, with respect to the same subject matter.

7.13 Waiver. The waiver by any party of a breach or violation of any provision of this Agreement shall not operate as, or be construed to be, a waiver of any subsequent breach of the same or any other provision hereof.

7.14 Survival. RMHMO's and the Contractor's obligations under this Agreement shall survive following termination or expiration of this Agreement to the extent necessary to give effect to the intent and understanding of the parties.

RMHMO shall promptly notify Contractor if: (a) production of the requested record would disclose RMHMO's trade secrets, privileged information, and/or confidential commercial or financial data pursuant to C.R.S. § 24-72-204(3)a(IV) or; (b) RMHMO desires to pursue a legal action to prevent disclosure of such documents. Contractor shall determine whether to deny the request. If the Contractor's denial of a request is challenged, Contractor will notify RMHMO of such challenge and provide RMHMO with a written copy of any such challenge. RMHMO shall indemnify and hold Contractor harmless from any claim or judgment as well as any costs and attorney's fees incurred in denying such request or otherwise assisting Contractor in response to a denial and/or legal challenge to the denial.

### **ARTICLE 1 FUNDED SERVICES**

1.1 Service Modalities Provided. Contractor shall provide services as indicated in Section 1.4 of the Agreement and Table 1.1 immediately below. Payment of these funds is contingent on the funds being budgeted, appropriated, and otherwise made available to RMHMO by OBH. Additionally, usage and invoicing of these funds is subject to the terms of the Colorado Department of Human Services Behavioral Health Auditing and Accounting Guidelines.

- a. For services categorized as payment type Capacity in Table 1.1 above, Contractor shall submit monthly capacity invoices for reimbursement, where applicable, along with appropriate supporting documentation for personnel, Client, travel, consulting and operating expenses. Appropriate support documentation shall include, but is not limited to, the following: (i) employee timecards showing staff name, position and percentage of effort for salaries and benefits billed; (ii) receipts for goods and services purchased; and (iii) an expense allocation methodology for travel, Client, consulting and operating expenses, if applicable. 2.2 Incentivizing Network Performance. RMHMO, in its sole discretion, may issue a performance bonus to the Contractor if Contractor exceeds the metrics set forth in Table 2.1.

## **EXHIBIT B REPORTING REQUIREMENTS**

1.1 Infrastructure. Contractor shall have an information system infrastructure, data collection processes, and analysis and reporting capabilities which meets the requirements of this Agreement and the Crisis System Agreement.

1.2 Data Element Reporting Requirements.

- a. Aggregate data shall be delivered in accordance with the Data Dictionary set forth in the RMHMO Provider Manual. Aggregate data shall be delivered to RMHMO for each modality of the Crisis System: Mobile Crisis Response, Crisis Stabilization Unit Admissions, Walk-in Crisis Access, or Crisis Respite. Aggregate data shall be delivered on the 10th of each month following the reporting month.
- b. Additional detail on Client Crisis System care may be requested by RMHMO and Contractor shall comply with these requests. Such requests shall be considered as focusing on quality assurance/improvement within the Crisis System. Contractor shall answer occasional data inquiries from RMHMO within five (5) calendar days for data that is collected per this Exhibit. For other requests, RMHMO will endeavor to develop a reasonable timeline for the Contractor to respond.

1.3 Deliverable Timeframes.

- a. Contractor shall, in coordination with RMHMO, make necessary and reasonable system modifications and requirements within requirements within a period not to exceed ninety (90)

- b. When the Colorado COMPASS system is operational in a production environment for the Crisis System, Contractor shall comply with reporting requirements relating to these services and OBH requirements.

#### 1.4 Future Process Improvement.

- a. It is the desire of OBH and RMHMO to apply an iterative improvement cycle for the collection and integration of Crisis System data. This desire is driven towards achieving the priorities of the meaningful use of health information. Crisis System records, as generated by Contractor, contribute to a better picture of a Client's total healthcare profile. Similarly, accessing a Client's health information via a Health Information Exchange ("HIE") is similarly important to providing the best care for a Client when receiving services in the Crisis System
- b. Therefore, Contractor agrees to participate with OBH and RMHMO in the development of an integrated healthcare reporting platform when funding is made available for such an initiative. Some of the attributes of this system may include:
  - i. Utilizing the Continuity of Care Document ("CCD") via Health Level-7 ("HL7") transfer format to and from an HIE via a subcontracted provider's Electronic Health Record ("EHR").
  - ii. Availability to the State of real-time information of the Contractor's currently deployed Crisis System resources and available capacity.
  - iii. Granting OBH access to these records via an HIE (in Colorado, Quality Health Network and Colorado Regional Health Information Organization)
- c. Any information transmitted via HIE shall be secure, comply with HIPAA, 42 CFR Part 2, and applicable State information and technology requirements.

G. Security/Notification of Breach. At all times following the Receipt of PHI, until such time as the PHI is no longer in Contractor's possession or subject to its control:

(1) Contractor shall implement administrative, physical, and technical safeguards, as required by the Security Rule that reasonably and appropriately protect the confidentiality, integrity, and availability of PHI that it creates, Receives, maintains, or transmits on behalf of RME. Such administrative, physical, and technical safeguards, and other appropriate safeguards, shall be implemented in order to prevent any Use or Disclosure of PHI other than those permitted under this Business Associate Agreement; and

(2) Contractor shall notify RME within five (5) days of becoming aware of: (i) any Use or Disclosure of PHI not provided for by or contrary to the terms of this Business Associate Agreement, and (ii) any Security Incident. Any breach of Unsecured PHI must be reported by Contractor to RME as required at 45 CFR 164.410, without unreasonable delay and in no case later than five (5) calendar days after discovery of the breach.

H. Agents and Subcontractors. Contractor agrees to ensure that any agent or subcontractor of Contractor that creates, Receives, maintains, or transmits PHI agrees to the same restrictions and conditions that apply to Contractor with respect to the PHI. Further, Contractor shall implement and maintain sanctions against agents and subcontractors, if any, that violate such restrictions and conditions. Contractor shall maintain the right to terminate any agreement with an agent or subcontractor who fails to abide by such restrictions and obligations or cure such violations within thirty (30) days, and shall take such other action as required by HIPAA, including reporting the violation to the U.S. Secretary of the Department of Health and Human Services.

I. Covered Entity Obligations. To the extent that Contractor is carrying out RME's obligations under HIPAA, Contractor shall comply with the requirements of HIPAA that apply to RME in performing such obligations.

J. Audits. Contractor agrees to make its internal practices, books, and records relating to its access to, and Use and Disclosure of, PHI received from or on behalf of RME or created by Contractor on behalf of RME available to RME or, at the request of RME, to the U.S. Secretary of the Department of Health and Human Services (Secretary) in a time and manner designated by RME or the Secretary for purposes of determining compliance with Information Privacy and Protection Laws.

K. Compliance with Law and Agreement. Each party to this Business Associate Agreement shall comply with, and as applicable shall require its directors, officers and employees to comply with, all applicable Information Privacy and Protection Laws and with each party's duties and obligations pursuant to this Business Associate Agreement.

#### **IV. Information Transmission Agreement**

A. Transmission of PHI. In arranging for transmission or exchange of PHI with RME, regardless of the format of the information or the method of transmission utilized, Contractor will cooperate with RME to reasonably safeguard such information from unauthorized Disclosure.

#### **V. Term and Termination**

A. Effective Date. The Effective Date of this Business Associate Agreement shall be the effective date indicated on the signature page of this Business Associate Agreement.

B. Term. Except as otherwise agreed, this Business Associate Agreement shall be in effect for the term of the underlying agreement and shall be renewed with any renewal or extension of the underlying agreement.

C. Termination for Cause. Notwithstanding anything to the contrary in this Business Associate Agreement or the underlying agreement, following RME's discovery and determination of a material breach by Contractor of the terms of this Business Associate Agreement, and Contractor's failure to cure or end the violation within any time period agreed to by RME, if any, RME may:

(1) Terminate this Business Associate Agreement and the underlying agreement or contract upon written notice to Contractor without any judicial intervention being required and without liability for such termination; or

(2) If termination is not feasible, report the issue to the Secretary of the U.S. Department of Health and Human Services.

D. Effect of Termination.

(1) Except as provided in paragraph (2) of this section, upon termination of this Business Associate Agreement, for any reason, Contractor shall return or destroy all PHI Received from RME, or created or Received on behalf of RME. Contractor shall retain no copies of the PHI. This provision shall apply to PHI that is in the possession of subcontractors or agents of Contractor, and to PHI Disclosed by Contractor to Third Parties.

(2) In the event that Contractor determines that returning or destroying PHI is not feasible, Contractor shall provide to RME notification of the conditions that make return or destruction not feasible. Upon mutual agreement of the parties that return or destruction of PHI is infeasible, Contractor shall extend the protections of this Business Associate Agreement to any PHI that is so retained and not destroyed and limit further uses and disclosures of PHI to those purposes that make the return or destruction infeasible, for so long as such PHI is maintained.

E. Archiving of Information. Any Information retained by Contractor pursuant to paragraph V.D.2. above shall be returned or destroyed when the circumstances making its return or destruction infeasible no longer exist, and until such time, Contractor shall continue to comply with all requirements and protections that apply to PHI under this Business Associate Agreement for as long as such information is retained.

2. Equal Opportunity. Contractor shall comply with this policy as may be required by law. These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status or disability.** All Contractors and subcontractors are notified of their responsibility to comply with these laws. ☐ Assessor recommends approval as outlined above.

If the request for abatement is based upon the grounds of overvaluation, no abatement or refund of taxes shall be made if an objection or protest to such valuation has been filed and a Notice of Determination has been mailed to the taxpayer, § 39-10-114(1)(a)(i)(D), C.R.S.

Tax year 2019 Protest? ☒ No ☐ Yes (If a protest was filed, please attach a copy of the NOD.)

Tax year 2020 Protest? ☒ No ☐ Yes (If a protest was filed, please attach a copy of the NOD.)

☒ Assessor recommends denial for the following reason(s):

Examples of typical abatement situations that should be denied:

1. **Best Information Available (BIA) Assessments:** When an owner does not file a personal property declaration schedule with the assessor, the assessor assigns a BIA assessment to the property, § 39-5-116(1), C.R.S. A Notice of Valuation is mailed to the owner, and if the BIA value is not protested during the statutory time frame, an abatement petition filed by the owner on the BIA assessment should be denied, § 39-5-118, C.R.S. See *Property Tax Administrator v. Production Geophysical Services, Inc.*, 860 P.2d 514 (Colo. 1993).

Abatement Petition: Elder, Nathania S TTEE OF Danial & Nathania S Elder

Account Number: 1040093747

Assessors' Office Summary: Erroneous Classification

The Assessor recommends denial for the following reason:

Attached is a request for a refund of taxes for the years 2018 & 2019 from Nathania S TTEE of Daniel & Nathania S Elder Trust. The property legal is: Lot 21, Hastings Mesa Estate. The requested abatement is for the reclassification of the lot from vacant to residential.

Research on Ownership, Mapping and Use was done by the Assessors' Office to see if the criteria for contiguous classification was met.

Lot 18 Hastings Mesa Estates is the lot with the residence, in 2018 & 2019 this lot was held in the ownership under, Daniel & Nathania Trust. Lot 21 Hastings Mesa Estate was held in the ownership title under Nathania Elder S TTEE of Daniel & Nathania S Elder Trust Dated 12-5-2008. As Nathania E Elder's Sole and Separate property.

Under the Colorado Courts Of Appeal Case, The Kelly Case," identical ownership is required on the touching parcels". These two lots in 2018 & 2019 do not met that requirement. Therefore they do not meet the requirements for contiguous classification.

#### Assessors' Recommendation

2018 \$200,000.00 Actual Value \$58,000.00 Assessed \$2,089.57 Taxes

2019 \$225,000.00 Actual Value \$65,250.00 Assessed \$2,448.25 Taxes

Petitioner requests an abatement or refund of the appropriate taxes and states that the taxes assessed against the above property for property tax year(s) 2020 and 2020 are incorrect for the following reasons (Briefly describe why the taxes have been levied erroneously or illegally, whether due to erroneous valuation, irregularity in levying, clerical error or overvaluation. Attach additional sheets if necessary.)

This petition is NOT based upon the ground of erroneous valuation. We only dispute the incorrect classification of the subject property. This lot should be classified for the year of 2020 as "residential land" because it is a) contiguous to the owner's residence parcel, b) under common ownership, and c) used as a unit in conjunction with the residence on the owner's contiguous lot 26. According to C.R.S. §39-1-102(14.4)(a) and the recent ruling by the Colorado Supreme Court, residential improvements are NOT required to exist on contiguous parcels and the subject should have been classified as "residential land" in 2020.

**Additional Documentation for Petition for Abatement or Refund of Taxes  
Due to Misclassification of Property for Tax Year 2020 of:**

**Lot 27 in Telluride Ski Ranches**

1. Due to the Colorado Supreme Court's recent (February 18, 2020) final decisions concerning the proper interpretation of the Statutory Definition of "Residential Land" in C.R.S. § 39-1-102(14.4)(a), this property should be classified as "Residential Land" and taxed accordingly.
2. According to the Colorado Supreme Court, for an undeveloped parcel to qualify to be classified as "Residential Land" under C.R.S. §39-1-102(14.4)(a), there is **no requirement** that any residential improvements exist upon the undeveloped parcel of land.
3. The Colorado Supreme Court also upheld that the undeveloped parcel must meet all the other 3 requirements in the following ways:
  - a. To qualify as being "used as a unit", the owner must use "multiple parcels of land together as a collective unit of residential property".
  - b. To qualify as being "contiguous" to another commonly owned parcel with a residence upon it, the parcels must "touch" each other.
  - c. To qualify as having "common ownership" the contiguous properties must be owned by the same entities or by the same persons.
4. This Lot 27 qualifies in all aspects to be classified as "Residential Land" because of the following conditions:
  - a. It is being "used as a unit" with the parcel containing the residence in that the owners use the two parcels of land together as a collective unit of residential property, and more particularly use the undeveloped parcel every day to keep their privacy and views maintained since no one else can own Lot 27 and build a house on it which would harm their privacy and views for their residence on contiguous Lot 26, 121 Sunrise Circle.
  - b. It is definitely fully "contiguous" in that Lot 27 actually touches the Lot 26 along a good length of a common lot line. See the schematic that shows their contiguousness following or attached.
  - c. The two parcels are clearly under common ownership since Henry Nicholas Goodman and Diane Ruth Goodman are the same 2 owners as tenants in common for both properties. Both, the attached aerial diagram and the 2 deeds show common ownership.

## Aerial Diagram from the Assessor's GIS Map that Shows:

- The 2 lots are, Indeed, under Common Ownership
- The Two Lots are, Indeed, Very Contiguous

## OFFICE OF THE COUNTY ATTORNEY

AMY T. MARKWELL

### MEMORANDUM

TO: Board of County Commissioners; Sheriff Masters; County Manager  
FROM: Amy Markwell  
DATE: March 24, 2021  
  
RE: Model Traffic Code – Process Considerations Prior to Adoption

### BACKGROUND

Uniform traffic laws in Colorado exist in statute and are a matter of state-wide concern. It is the intent of the General Assembly that traffic laws be consistent across the state to avoid driver confusion. Those laws are primarily found in Title 42 of the Colorado Revised Statutes. However, local governments have the option of adopting the Model Traffic Code for Colorado (“MTC”) in whole or in part:

“All local authorities may, in the manner prescribed in article 16 of title 31, C.R.S., or in article 15 of title 30, C.R.S., adopt by reference all or any part of a model traffic code which embodies the rules of the road and vehicle requirements set forth in this article and such other additional regulations as are provided for in C.R.S. § 42-4-111; except that, in the case of state highways, any such additional regulations shall have the approval of the department of transportation”. C.R.S. § 42-4-110(1)(b)

The MTC is a direct replica of the statutes. For example:

**C.R.S. § 42-4-1401 Reckless driving – penalty.** (1) A person who drives a motor vehicle, bicycle, electrical assisted bicycle, or low-power scooter in such a manner as to indicate either a wanton or a willful disregard for the safety of persons or property is guilty of reckless driving. A person convicted of reckless driving of a bicycle or electrical assisted bicycle shall not be subject to the provisions of section 42-2-127.

(2) Any person who violates any provision of this section commits a class 2 misdemeanor traffic offense. Upon a second or subsequent conviction, such person shall be punished by a fine of not less than fifty dollars nor more than one thousand dollars, or by imprisonment in the county jail for not less than ten days nor more than six months, or by both such fine and imprisonment.

**Model Traffic Code § 1401. Reckless driving - penalty.** (1) A person who drives a motor vehicle, bicycle, electrical assisted bicycle, or low-power scooter in such a manner as to indicate either a wanton or a willful disregard for the safety of persons or property is guilty of reckless driving. A person convicted of reckless driving of a bicycle or electrical assisted bicycle shall not be subject to the provisions of C.R.S. § 42-2-127.

(2) Any person who violates any provision of this section commits a class 2 misdemeanor traffic offense. Upon a second or subsequent conviction, such person shall be punished by a fine of not less than fifty dollars nor more than one thousand dollars, or by imprisonment in the county jail for not less than ten days nor more than six months, or by both such fine and imprisonment.

## **BENEFITS OF ADOPTING THE MTC**

The primary benefit for the County in adopting the MTC is local control over local issues. A secondary benefit is that any fees collected from the enforcement of these laws would remain with the county rather than going to the state.

## **CHALLENGES OF ADOPTING THE MTC**

San Miguel County adopted the 1977 Model Traffic Code in Ordinance 1984-03. As of the writing of this memo, staff has not been able to determine if that Ordinance was ever rescinded or updated. However, there isn't a current implementation of the MTC and there would be a burden placed on the County and Court for the implementation and ongoing administration of this program.

## **ANTICIPATED PROCESS**

**BOCC:** The Board would adopt the MTC by Ordinance. The MTC could be adopted in full or staff, in consultation with the Sheriff's Office, would review and provide recommendations on codes that could be omitted from adoption.

**Court:** the Court will need to work with State Judicial in order to add the MTC codes to their computer systems and staff will need to be trained to use them.

Pros: Montrose County has adopted the MTC so the codes and system for implementing them has already been done in the 7<sup>th</sup> Judicial District.

The prosecution and hearings needed to enforce the traffic statutes and MTC are the same.

Cons: The court's docket is significantly backlogged due to COVID and having been unable to hold in person hearings and jury trials for approximately one year.

**Sheriff's Office:** The SO takes on the role of creating new traffic tickets with the MTC codes, training their patrol deputies on the new ticket system, collecting any fees paid and reporting violations to the Department of Revenue.

Pros: The MTC codes are not significantly different from the statutory codes so the learning curve for the patrol deputies isn't steep.

Cons: This would be an entirely new process for the SO's Administrative Division.

SO staff is currently dealing with the remodel of the Ilium building and the construction of the Norwood building.

## **ANTICIPATED TIMELINE AND RECOMMENDATIONS**

If the BOCC would like to move forward with this process, I would recommend adding this topic to a worksession in late May (May 26) so that staff (County Attorney and SO staff) have time to review the MTC and provide suggestions on codes that could be deleted from adoption.

If the BOCC would like to continue, legal staff would then need to draft the ordinance and follow the ordinance adoption process which takes a month to a month and a half from first reading to adoption. First reading could be done at the BOCC's regular meeting on June 16 (Egnar), July 7 (Norwood), or July 21 (Telluride).

Once the Ordinance is adopted, it could take another 5-7 months for Court and SO staff to work out the details needed for full implementation.

AN ORDINANCE REGULATING TRAFFIC BY  
SAN MIGUEL COUNTY, COLORADO; ADOPTING BY REFERENCE  
THE 1977 EDITION OF THE MODEL TRAFFIC CODE FOR COLORADO  
MUNICIPALITIES AND PROVIDING PENALTIES  
FOR VIOLATION THEREOF

ORDINANCE NO. 3

WHEREAS, C.R.S. 30-15-401 (1) (h) authorizes San Miguel County, through its Board of County Commissioners, to adopt an ordinance for the control and regulation of the movement and the parking of motor vehicles on public property; and

WHEREAS, The Board of County Commissioners finds that the model traffic code which was promulgated for use by Colorado municipalities is a well-reasoned and comprehensive compilation of appropriate traffic and parking control measures and is appropriate for adoption by this County; and

WHEREAS, The Sheriff of San Miguel County has recommended that such a code for motor vehicle traffic control is necessary for the public health, safety and welfare; and

WHEREAS, The Board of County Commissioners finds that the adoption of the Model Traffic Code for Colorado municipalities, 1977 revision, promulgated by the Colorado State Department of Highways, is appropriately adopted by reference;

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF SAN MIGUEL COUNTY, COLORADO:

SECTION I. ADOPTION

Pursuant to C.R.S. 1973, 30-15-401, there is hereby adopted by reference Articles I through XXVI, inclusive, of the 1977 Edition of the "Model Traffic Code for Colorado Municipalities" promulgated by the State Department of Highways, 4201 East Arkansas Avenue, Denver, Colorado, 80222. ## FORWARD

Because of the significant mobility of today's traffic and the influx of motorists from many areas, every driver has a right to expect the rules governing the movement of vehicles and pedestrians on streets and highways are clearly defined and reasonably uniform throughout the state and the nation.

The General Assembly of the State of Colorado has recognized that conflicts between the state's traffic laws and municipal traffic ordinances lead to inconsistencies in the movement of traffic and has strengthened the requirements for uniformity of traffic regulations in the following terms:

"This article constitutes the uniform traffic code throughout the state and in all political subdivisions and municipalities therein". (Source: 42- 4-110 (1), C.R.S.)

"All local authorities may, in the manner prescribed in article 16 of title 31, C.R.S., or in article 15 of title 30, C.R.S., adopt by reference all or any part of a model traffic code which embodies the rules of the road and vehicle requirements set forth in this article and such other additional regulations as are provided for in section 42-4-111; except that, in the case of state highways, any such additional regulations shall have the approval of the department of transportation". (Source: 42-4-110 (1)(b), C.R.S.)

"No local authority shall adopt, enact, or enforce on any street which is a state highway any ordinance, rule, or resolution which alters or changes the meaning of the "rules of the road" or is otherwise in conflict with the provisions of this article. For the purpose of this section, the "rules of the road" shall be construed to mean any of the regulations on the operation of vehicles set forth in this article which drivers throughout the state are required to obey without the benefit or necessity of official traffic control devices as declared in section 42-4-603 (2)." (Source: 42- 4-110(1)(c), C.R.S.)

These provisions leave little doubt that the basic driving rules are expected to be uniform statewide for the protection of Colorado drivers and pedestrians. If state laws and local government traffic codes are to serve their purpose they must complement one another and be given the widest possible publicity as companion documents.

The National Committee on Uniform Traffic Laws and Ordinances points out that it is not the proper purpose of traffic legislation to impose unnecessary or unreasonable restrictions on street or highway traffic, but to ensure, as far as this can be done by law and its enforcement, that traffic shall move smoothly, efficiently and safely; that no legitimate user of the street or highway, whether in a vehicle or on foot, shall be killed, injured or frustrated in such use by the improper behavior of others.

Through the cooperative efforts of both state and local governments, the “Model Traffic Code for Colorado” has been developed to make available a specimen set of motor vehicle and traffic regulations that track state law.

Section 42-4-105, C.R.S., states that all traffic control devices placed or maintained by local authorities shall conform to the most recent edition of the federal “Manual on Uniform Traffic Control Devices” (MUTCD) and the state supplement thereto.

Traffic regulatory areas preempted by state law have not been made part of the Code. Local governments are urged to bring their traffic ordinances into harmony with the current Code.

Local governments that adopt the Code by reference are cautioned not to make any changes or additions which are in conflict with state law. However, the adopting local governments are at liberty to delete any parts, articles, or sections which are deemed to be inapplicable. A specimen ordinance and specimen public notices for adopting the Code by reference will be found in the Appendix.

The following official state documents work in tandem to provide a uniform system of traffic regulation and accepted traffic engineering practices for greater operational efficiency and safety:

- Colorado Revised Statutes (C.R.S.), Title 42, Article 4 - Uniform traffic code for the State of Colorado. Updated periodically to correlate with national model legislation.
- Model Traffic Code for Colorado – Model ordinance embodies provisions of Colorado Law applicable to driving in municipalities and counties in a form that can be adopted by reference.
- Colorado Drivers Manual – Drivers’ handbooks authorized by Colorado statute. Issued by the Colorado Department of Revenue (Division of Motor Vehicles). Traffic control text and illustrations developed by the Colorado Department of Transportation.
- Manual on Uniform Traffic Control Devices (MUTCD) – Manual of Federal Highway Administration approved traffic control devices. Updated periodically and adopted by the Transportation Commission as required by Colorado Law.

(2) After enacting any such ordinance signs designating the permissible weights shall be erected and maintained.

(3) This local government, with respect to highways under its jurisdiction, may also, by ordinance or resolution, prohibit the operation of trucks or other commercial vehicles on designated highways or may impose limitations as to the weight thereof, which prohibitions and limitations shall be designated by appropriate signs placed on such highways.

(6)(a) Local authorities may, within their respective jurisdictions, for the purpose of road construction and maintenance, temporarily close to through traffic or to all vehicular traffic any highway or portion thereof for a period not to exceed a specified number of workdays for project completion and shall, in conjunction with any such road closure, establish appropriate detours or provide for an alternative routing of the traffic affected when, in the opinion of concerned local authorities, as evidenced by resolution or ordinance, such temporary closing of the highway or portion thereof and the rerouting of traffic is necessary for traffic safety and for the protection of work crews and road equipment. Such temporary closing of the highway or portion thereof and the routing of traffic along other roads shall not become effective until official traffic control devices are erected giving notice of the restrictions, and, when such devices are in place, no driver shall disobey the instructions or directions thereof.

(b) Notwithstanding paragraph (a) of this subsection (1), a low-speed electric vehicle may be operated on a state highway that has a speed limit equal to forty miles per hour or cross a roadway with a speed limit equal to forty miles per hour to cross at-grade, if:

(I) Such roadway's lane width is eleven feet or greater;

(II) Such roadway provides two or more lanes in either direction; and

(III) The Colorado department of transportation has determined, in consultation with local government and law enforcement, upon the basis of a traffic investigation, survey, appropriate design standards, or projected volumes, that the operation of a low-speed electric vehicle on the roadway poses no substantial safety risk or hazard to motorists, bicyclists, pedestrians, or other persons.

(2) No person shall operate a low-speed electric vehicle on a limited-access highway.

(1) The provisions of this Code shall be applicable and uniform throughout this state and in all political subdivisions and municipalities therein. Local governments shall regulate and enforce all traffic and parking restrictions on streets which are state highways as provided in section 43-2-135 (1)(g), C.R.S. All local authorities may enact and enforce traffic regulations on other roads and streets within their respective jurisdictions. All such regulations shall be subject to the following conditions and limitations:

(a) All local governments may enact, adopt, or enforce traffic regulations which cover the same subject matter as the various sections of this Code or state law and such additional regulations as are included in section 111, except as otherwise stated in paragraphs (c ) to (e ) of this subsection (1).

(b) All local authorities may, in the manner prescribed in article 16 of title 31, C.R.S. or in article 15 of title 30, C.R.S., adopt by reference all or any part of a model traffic code which embodies the rules of the road and vehicle requirements set forth in this article and such additional regulations as are provided for in section 111; except that in the case of state highways, any such additional regulation shall have the approval of the department of transportation.

(c) No local authority shall adopt, enact, or enforce on any street which is a state highway any ordinance, rule, or resolution which alters or changes the meaning of any of the “rules of the road” or is otherwise in conflict with the provisions of this article. For the purpose of this section, the “rules of the road” shall be construed to mean any of the regulations on the operation of vehicles set forth in this article which drivers throughout the state are required to obey without the benefit or necessity of official traffic control devices as declared in section 603(2)

(d) In no event shall local authorities have the power to enact by ordinance regulations governing the driving of vehicles by persons under the influence of alcohol or of a controlled substance as defined in section 18-18-102(5), C.R.S., or under the influence of any other drug to a degree that renders any such person incapable of safely operating a vehicle, or whose ability to operate a vehicle is impaired by the consumption of alcohol or by the use of a controlled substance as defined in section 18-18-102(5), C.R.S., or any other drug, the registration of

(c) The aggregate amount of fines, penalties, or forfeitures collected pursuant to ordinances or resolutions adopted as authorized in paragraph (a) of this subsection (4) shall be retained by the local jurisdiction in whose name such penalty notice was issued.

(5) The general assembly declares that the adjudication of class A and class B traffic infractions through the county court magistrate system was not intended to create a conflict between the provisions of this article and municipal ordinances covering the same subject matter as this article nor was it intended to require or prohibit the decriminalization of municipal ordinances covering the same subject matter as this article. Municipalities may continue to enforce violations of such ordinances through municipal court even though similar state offenses are enforced through the magistrate system established under this article.

(6) (a) The general assembly hereby finds that the use of automated driving systems will help people who may have difficulty driving, including people who are elderly and people with disabilities, gain access to goods and services essential to daily life. This access requires traveling across and in multiple jurisdictions. Therefore, the regulation of automated driving systems is a matter of statewide concern.

(b) A state agency or a political subdivision of the state shall not adopt or enforce a policy, rule, or ordinance that sets standards for an automated driving system that are different from the standards set for a human driver.

**110.5. Automated vehicle identification systems – definition.** (1) The general assembly hereby finds and declares that the enforcement of traffic laws through the use of automated

(1.5) Except as set out in (1.7), nothing in this section shall apply to a violation detected by an automated vehicle identification device for driving twenty-five miles per hour or more in excess of the reasonable and prudent speed or twenty-five miles per hour or more in excess of the maximum speed limit of seventy-five miles per hour detected by the use of an automated vehicle identification device.

(1.7)(a) An automated vehicle identification system shall not be used under this subsection (1.7) unless maintenance, repair, or construction is occurring at the time the system is being used.

(2) A local authority may adopt an ordinance authorizing the use of an automated vehicle identification system to detect violations of traffic regulations adopted by the municipality or the local authority may utilize an automated vehicle identification system to detect traffic violations under state law, subject to the following conditions and limitations:

(a) (I) (Deleted by amendment, L. 2002, p. 570, § 1, effective May 24, 2002.

(II) If a local authority detects any alleged violation of a local traffic regulation or traffic violation under state law through the use of an automated vehicle identification system, then the state, county, city and county or municipality shall serve the penalty assessment notice or summons and complaint for a violation detected using an automated vehicle on the defendant no later than ninety days after the alleged violation occurred. If a penalty assessment notice or summons and complaint for a violation detected using an automated vehicle identification system is personally served, the state, a county, a city and county, or a municipality may only charge the actual costs of service of process that shall be no more than the amount usually charged for civil service of process.

The local authority may regulate vehicles within such crossings only to the extent necessary to effect the local authority's power to regulate the roadway under the local authority's jurisdiction and only if the regulation or authorization does not interfere with the normal operation of the state highway.

(3) (a) A board of county commissioners may by resolution authorize the use of designated portions of unimproved county roads within the unincorporated portion of the county for motor vehicles participating in timed endurance events and for such purposes shall make such regulations relating to the use of such roads and the operation of vehicles as are consistent with public safety in the conduct of such event and with the cooperation of county law enforcement officials.

will not injure the highway; and except also that it shall be permissible to use tire chains of reasonable proportions upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid.

(4) The department of transportation and local authorities in their respective jurisdictions, in their discretion, may issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of such movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this Code.

(5) (a) No person shall drive or move a motor vehicle on any highway unless such vehicle is equipped with tires in safe operating condition in accordance with this subsection (5) and any supplemental rules and regulations promulgated by the executive director of the department.

(b) The executive director of the department shall promulgate such rules as the executive director deems necessary setting forth requirements of safe operating conditions for tires. These rules shall be utilized by law enforcement officers for visual inspection of tires and shall include methods for simple gauge measurement of tire tread depth.

(c) A tire shall be considered unsafe if it has:

(I) Any bump, bulge, or knot affecting the tire structure;

(II) A break which exposes a tire body cord or is repaired with a boot or patch;

readily be dismembered and except connections between vehicles in which the combined lengths of the vehicles and the connection does not exceed an overall length of fifty-five feet and the connection is of rigid construction included as part of the structural design of the towed vehicle.

(2) When one vehicle is towing another and the connection consists of a chain, rope, or cable, there shall be displayed upon such connection a white flag or cloth not less than twelve inches square.

(3) Whenever one vehicle is towing another, in addition to the drawbar or other connection, except a fifth wheel connection meeting the requirements of the department of transportation, safety chains or cables arranged in such a way that it will be impossible for the vehicle being towed to break loose from the vehicle towing in the event the drawbar or other connection were to be broken, loosened, or otherwise damaged shall be used. This subsection (3) shall apply to all motor vehicles, to all trailers, except semitrailers connected by a proper fifth wheel, and to any dolly used to convert a semitrailer to a full trailer.

(1) (a) Except as provided in subsection (1.5) of this section, a person shall not move or operate a vehicle or combination of vehicles on any highway or bridge when the gross weight upon any one axle of a vehicle exceeds the limits prescribed in section 507.

(b) Subject to the limitations prescribed in section 507, the maximum gross weight of any vehicle or combination of vehicles shall not exceed that determined by the formula  $W = 1,000 (L + 40)$ , where  $W$  represents the gross weight in pounds and  $L$  represents the length in feet between the centers of the first and last axles of such vehicle or combination of vehicles; except that, in computation of this formula, the gross vehicle weight must not exceed eighty-five thousand pounds. For the purposes of this section, where a combination of vehicles is used, a vehicle must not carry a gross weight of less than ten percent of the overall gross weight of the combination of vehicles; except that these limitations shall not apply to specialized trailers of fixed public utilities whose axles may carry less than ten percent of the weight of the combination. The limitations provided in this section must be strictly construed and enforced.

(c) Notwithstanding any other provisions of this section, except as may be authorized under section 510, a person shall not move or operate a vehicle or combination of vehicles on any highway or bridge that is part of the national system of interstate and defense highways, also known as the interstate system, when the gross weight of such vehicle or combination of vehicles exceeds the amount determined by the formula  $W = 500 [(LN/N-1) + 12N + 36]$ , up to a maximum of eighty thousand pounds, where  $W$  represents the overall gross weight on any group of two or more consecutive axles to the nearest 500 pounds,  $L$  represents the distance in feet between the extreme of any group of two or more consecutive axles, and  $N$  represents the number of axles in the group.

(d) For the purposes of this subsection (1), where a combination of vehicles is used, a vehicle must not carry a gross weight of less than ten percent of the overall gross weight of the combination of vehicles; except that this limitation does not apply to specialized trailers whose specific use is to haul poles and whose axles may carry less than ten percent of the weight of the combination.

(1.5) The gross weight limits provided in subsection (1) of this section increase, but by no more than two thousand pounds for any vehicle or combination of vehicles if the vehicle or combination of vehicles contains an alternative fuel system and operates on alternative fuel or both alternative and conventional fuel. For the purposes of this subsection (1.5), “alternative fuel” has the same meaning provided in section 25-7-106.8(1)(a), C.R.S.

(2) The department upon registering any vehicle under the laws of this state, which vehicle is designed and used primarily for the transportation of property or for the transportation of ten or more persons, may acquire such information and may make such investigation or tests as necessary to enable it to determine whether such vehicle may safely be operated upon the highways in compliance with all the provisions of this article. The department shall not register any such vehicle for a permissible gross weight exceeding the limitations set forth in sections 501 to 512 and 1407 of this Code. Every such vehicle shall meet the following requirements:

(4) Any person who drives a vehicle or owns a vehicle in violation of any provision of this section commits a class 2 misdemeanor traffic offense.

#### **509. Vehicles weighed – excess removed.**

(1) Any police or peace officer, as described in section 16-2.5-101, C.R.S., having reason to believe that the weight of a vehicle and load is unlawful is authorized to require the driver to stop and submit to a weighing of the same by means of either portable or stationary scales or

shall require that such vehicle be driven to the nearest public scales in the event such scales are within five miles.

(2) (a) Except as provided in paragraph (b) of this subsection (2), whenever an officer upon weighing a vehicle and load as provided in subsection (1) of this section determines that the weight is unlawful, such officer shall require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of such vehicle to such limit as permitted under sections 501 to 512 and 1407. All material so unloaded shall be cared for by the owner or operator of such vehicle at the risk of such owner or operator.

(b) Whenever an officer upon weighing a vehicle and load as provided in subsection (1) of this section determines that the weight is unlawful and the load consists solely of either explosives or hazardous materials as defined in section 102 (32), such officer shall permit the driver of such vehicle to proceed to the driver's destination without requiring the driver to unload the excess portion of such load.

(3) Any driver of a vehicle who fails or refuses to stop and submit the vehicle and load to a weighing or who fails or refuses when directed by an officer upon a weighing of the vehicle to stop the vehicle and otherwise comply with the provisions of this section commits a class 2 misdemeanor traffic offense.

#### **510. Permits for excess size and weight and for manufactured homes - rules.**

(1) (a) Any local authority with respect to highways under its jurisdiction may, upon application in writing and good cause being shown therefor, issue a single trip, a special, or an annual permit in writing authorizing the applicant to operate or move a vehicle or combination of vehicles of a size or weight of vehicle or load exceeding the maximum specified in this Code or otherwise not in conformity with the provisions of this Code upon any highway under the jurisdiction of the party granting such permit and for the maintenance of which said party is responsible; except that permits for the movement of any manufactured home shall be issued as provided in subsection (2) of this section.

(b) (I) The application for any permit shall specifically describe the vehicle and load to be operated or moved and the particular highways for which the permit to operate is requested, and whether such permit is for a single trip, a special, or an annual operation, and the time of such movement. All local permits shall be issued in the discretion of the local authority pursuant to ordinances or resolutions adopted in accordance with section 511. Any ordinances or resolutions of local authorities shall not conflict with this section.

(II) An overweight permit issued pursuant to this section shall be available for overweight divisible loads if:

(A) The vehicle has a quad axle grouping and the maximum gross weight of the vehicle does not exceed one hundred ten thousand pounds; or

(B) The vehicle is operated in combination with a trailer or semitrailer, the trailer has two or three axles, and the maximum gross weight of the vehicle does not exceed ninety-seven thousand pounds; and

(C) The owner and operator of the motor vehicle are in compliance with the federal “Motor Carrier Safety Improvement Act of 1999”, Pub.L. 106-159, as amended, as applicable to commercial vehicles; and

(D) The vehicle complies with rules promulgated by the department of transportation concerning the distribution of the load upon the vehicle’s axles.

(III) A permit issued pursuant to this paragraph (b) shall not authorize the operation or movement of a motor vehicle on the interstate highway in violation of federal law.

(c) (I) A single trip or annual permit shall be issued pursuant to this section for a self-propelled fixed load crane that exceeds legal weight limits if it does not exceed the weight limits authorized by the department of transportation. A boom trailer or boom dolly shall not be permitted unless the boom trailer or boom dolly is attached to the crane in a manner and for the purpose of distributing load to meet the weight requirements established by the department. A self-propelled fixed load crane may be permitted with counterweights when a boom trailer or boom dolly is used if the counterweights do not exceed the manufacturer’s rated capacity of the self-propelled fixed load crane and do not cause the vehicle to exceed permitted axle or gross weight limits. A permit issued pursuant to this paragraph (c) shall not authorize movement on interstate highways if not approved by federal law.

(II) For the purposes of this paragraph (c), “self-propelled fixed load crane” means a self-powered mobile crane designed with equipment or parts permanently attached to the body of the crane. A self-propelled fixed load crane includes, without limitation, the crane’s shackles and slings.

Note: 1.5 & 1.7(2) (a) An authentication of paid ad valorem taxes, after notification of such movement to the county treasurer, may serve as a permit for movement of manufactured homes on public streets or highways under the county’s jurisdiction. An authentication of paid ad valorem taxes from the county treasurer of the county from which the manufactured home is to be moved, after notification of such movement has been provided to the county assessor of the county to which the manufactured home is to be moved, pursuant to section 39-5-205, C.R.S., may also serve as a permit for the movement of manufactured homes from one adjoining county to an adjoining county on streets and highways under local jurisdiction. The treasurer shall issue along with the authentication of paid ad valorem taxes a transportable manufactured home permit. The treasurer may establish and collect a fee, which shall not exceed ten dollars, for issuing the authentication of paid ad valorem taxes and the transportable manufactured home permit. Such transportable manufactured home permit shall be printed on an eleven inch by six inch fluorescent orange card and shall contain the following information: The name and address of the owner of the mobile home; the name and address of the mover; the transport number of the mover, a description of the mobile home including the make, year, and identification or serial number; the county authentication number; and an expiration date. The expiration date shall be

set by the treasurer, but in no event shall the expiration date be more than thirty days after the date of issue of the permit. Such transportable manufactured home permit shall be valid for a single trip only. The transportable manufactured home permit shall be prominently displayed on the rear of the mobile home during transit of the mobile home. Peace officers and local tax and assessment officials may request, and upon demand shall be shown, all moving permits, tax receipts, or certificates required by this subsection (2). Nothing in this section shall require a permit from a county treasurer for the movement of a new manufactured home. For the purposes of this section, a new manufactured home is one in transit under invoice or manufacturer's statement of origin which has not been previously occupied for residential purposes.

(b) All applications for permits to move manufactured homes over state highways shall comply with the following special provisions:

(I) Each such application shall be for a single trip, a special permit, an annual permit, or, subject to the requirements of paragraph (a) of subsection (1.5) of this section, an annual fleet permit. The application shall be accompanied by a certificate or other proof of public liability insurance in amounts of not less than one hundred thousand dollars per person and three hundred thousand dollars per accident for all manufactured homes moved within this state by the permit holder during the effective term of the permit. Each application for a single trip permit shall be accompanied by an authentication of paid ad valorem taxes on the used manufactured home.

(II) Holders of permits shall keep and maintain, for not less than three calendar years, records of all manufactured homes moved in whole or in part within this state, which records shall include the plate number of the towing vehicle; the year, make, serial number, and size of the unit moved, together with date of the move; the place of pickup; and the exact address of the final destination and the county of final destination and the name and address of the landowner of the final destination. These records shall be available upon request within this state for inspection by the state of Colorado or any of its ad valorem taxing governmental subdivisions.

(III) Holders of permits shall obtain an authentication of paid ad valorem taxes through the date of the move from the owner of a used manufactured home or from the county treasurer of the county from which the used manufactured home is being moved. Permit holders shall notify the county treasurer of the county from which the manufactured home is being moved of the new exact address of the final destination and the county of final destination of the manufactured home and the name and address of the landowner of the final destination, and, if within the state, the county treasurer shall forward copies of the used manufactured home tax certificate to the county assessor of the destination county. County treasurers may compute ad valorem manufactured home taxes due based upon the next preceding year's assessment prorated through the date of the move and accept payment of such as payment in full.

(IV) No owner of a manufactured home shall move the manufactured home or provide for the movement of the manufactured home without being the holder of a paid ad valorem tax certificate and a transportable manufactured home permit thereon, and no person shall assist such an owner in the movement of such owner's manufactured home, including a manufactured home dealer. Except as otherwise provided in this paragraph (b), a permit holder who moves any

manufactured home within this state shall be liable for all unpaid ad valorem taxes thereon through the date of such move if movement is made prior to payment of the ad valorem taxes due on the manufactured home moved.

(V) In the event of an imminent natural or man-made disaster or emergency, including, but not limited to, rising waters, flood, or fire, the owner, owner's representative or agent, occupant, or tenant of a manufactured home or the mobile home park owner or manager, lienholder, or manufactured home dealer is specifically exempted from the need to obtain a permit pursuant to this section and may move the endangered manufactured home out of the danger area to a temporary or new permanent location and may move such manufactured home back to its original location without a permit or penalty or fee requirement. Upon any such move to a temporary location as a result of a disaster or emergency, the person making the move or such person's agent or representative shall notify the county assessor in the county to which the manufactured home has been moved, within twenty days after such move, of the date and circumstances pertaining to the move and the temporary or permanent new location of the manufactured home. If the manufactured home is moved to a new permanent location from a temporary location as a result of a disaster or emergency, a permit for such move shall be issued but no fee shall be assessed.

(3) Any local authority is authorized to issue or withhold a permit, as provided in this section, and, if such permit is issued, to limit the number of trips, or to establish seasonal or other time limitations within which the vehicles described may be operated on the highways indicated, or otherwise to limit or prescribe conditions of operation of such vehicles, when necessary to protect the safety of highway users, to protect the efficient movement of traffic from unreasonable interference, or to protect the highways from undue damage to the road foundations, surfaces, or structures and may require such undertaking or other security as may be deemed necessary to compensate for any injury to any highway or highway structure.

(4) The original or a copy of every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer or authorized agent of any authority granting such permit; except that, if a peace officer, as described in section 16-2.5-101, C.R.S., or an authorized agent of the authority that granted a permit may determine that the permit can be electronically verified at the time of contact, a copy of the permit need not be carried in the vehicle or combination of vehicles to which it refers. No person shall violate any of the terms or conditions of such permit.

(5) No vehicle having a permit under this section shall be remodeled, rebuilt, altered, or changed except in such a way as to conform to those specifications and limitations established in sections 501 to 507 and 1407.

(6) Any person who has obtained a valid permit for the movement of any oversize vehicle or load may attach to such vehicle or load or to any vehicle accompanying the same not more than three illuminated flashing yellow signals as warning devices.

(7) No permit shall be necessary for the operation of authorized emergency vehicles, public transportation vehicles operated by municipalities or other political subdivisions of the

state, county road maintenance and county road construction equipment temporarily moved upon the highway, implements of husbandry, and farm tractors temporarily moved upon the highway, including transportation of such tractors or implements by a person dealing therein to such person's place of business within the state or to the premises of a purchaser or prospective purchaser within the state; nor shall such vehicles or equipment be subject to the size and weight provisions of this part 5.

(8) The department of transportation shall have a procedure to allow those persons who are transporting loads from another state into Colorado and who would require a permit under the provisions of this section to make advance arrangements by telephone or other means of communication for the issuance of a permit if the load otherwise complies with the requirements of this section.

## **PART 6**

### **SIGNALS - SIGNS – MARKINGS**

**601. Local governments to sign highways, where.**

This local government shall place and maintain such traffic control devices, conforming to the "Manual of Uniform Traffic Control Devices" and specifications, upon streets and highways as it deems necessary to indicate and to carry out the provisions of this Code or to regulate, warn, or guide traffic.

**602. Local traffic control devices.**

(1) No local authority shall erect or maintain any stop sign or traffic control signal at any location so as to require the traffic on any state highway to stop before entering or crossing any intersecting highway unless approval in writing has first been obtained from the department of transportation.

(2) Where practical no local authority shall maintain three traffic control signals located on a roadway so as to be within one minute's driving time (to be determined by the speed limit) from any one of the signals to the other without synchronizing the lights to enhance the flow of traffic and thereby reduce air pollution.

### **603. Obedience to official traffic control devices.**

(1) No driver of a vehicle shall disobey the instructions of any official traffic control device including any official hand signal device placed or displayed in accordance with the provisions of this Code unless otherwise directed by a police officer subject to the exceptions in this Code granted the driver of an authorized emergency vehicle.

(2) No provision of this Code for which official traffic control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that official traffic control devices are required, such section shall be effective even though no devices are erected or in place.

(3) Whenever official traffic control devices are placed in position approximately conforming to the requirements of this Code, such devices shall be presumed to have been so placed by the official act or direction of lawful authority unless the contrary is established by competent evidence.

(4) Any official traffic control device placed pursuant to the provisions of this Code and purporting to conform to the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of this Code unless the contrary is established by competent evidence.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

### **604. Traffic control signal legend.**

(1) If traffic is controlled by traffic control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination as declared in the traffic control manual adopted by the department of transportation, only the colors green, yellow, and red shall be used, except for special pedestrian-control signals carrying a word or symbol legend as provided in section 802, and said lights, arrows, and combinations thereof shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) Green indication:

(I) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn; but vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection and to pedestrians lawfully within an adjacent crosswalk at the time such signal is exhibited.

(II) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(III) Unless otherwise directed by a pedestrian-control signal as provided in section 42-4-802, C.R.S., pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady yellow indication:

(I) Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter.

(II) Pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian-control signal as provided in section 802, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown, and no pedestrian shall then start to cross the roadway.

(c) Steady red indication:

(I) Vehicular traffic facing a steady circular red signal alone shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to proceed is shown; except that:

(A) Such vehicular traffic, after coming to a stop and yielding the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection, may make a right turn, unless state or local road authorities within their respective jurisdictions have by ordinance or resolution prohibited any such right turn and have erected an official sign at each intersection where such right turn is prohibited.

(B) Such vehicular traffic, when proceeding on a one-way street and after coming to a stop, may make a left turn onto a one-way street upon which traffic is moving to the left of the driver. Such turn shall be made only after yielding the right-of-way to pedestrians and other traffic proceeding as directed. No turn shall be made pursuant to this sub-subparagraph (B) if local authorities have by ordinance prohibited any such left turn and erected a sign giving notice of any such prohibition at each intersection where such left turn is prohibited.

(C) To promote uniformity in traffic regulation throughout the state and to protect the public peace, health, and safety, the general assembly declares that no local authority shall have any discretion other than is expressly provided in this subparagraph (I).

(II) Pedestrians facing a steady circular red signal alone shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 802.

(III) Vehicular traffic facing a steady red arrow signal may not enter the intersection to make the movement indicated by such arrow and, unless entering the intersection to make such other movement as is permitted by other indications shown at the same time, shall stop at a

clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to make the movement indicated by such arrow is shown.

(IV) Pedestrians facing a steady red arrow signal shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 802.

(d) Non-intersection signal: In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or pavement marking indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

(e) Lane-use-control signals: Whenever lane-use-control signals are placed over the individual lanes of a street or highway, as declared in the traffic control manual adopted by the department of transportation, such signals shall indicate and apply to drivers of vehicles as follows:

(I) Downward-pointing green arrow (steady): A driver facing such signal may drive in any lane over which said green arrow signal is located.

(II) Yellow "X" (steady): A driver facing such signal is warned that the related green arrow movement is being terminated and shall vacate in a safe manner the lane over which said steady yellow signal is located to avoid if possible occupying that lane when the steady red "X" signal is exhibited.

(III) Yellow "X" (flashing): A driver facing such signal may use the lane over which said flashing yellow signal is located for the purpose of making a left turn or a passing maneuver, using proper caution, but for no other purpose.

(a) When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed past such signal and through the intersection or other hazardous location only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad crossings shall be governed by the provisions of sections 706 to 708.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

#### **606. Display of unauthorized signs or devices.**

The provisions of this section shall not be deemed to prohibit the use of motorist services information of a general nature on official highway guide signs if such signs do not indicate the brand, trademark, or name of any private business or commercial enterprise offering the service, nor shall this section be deemed to prohibit the erection upon private property adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs.

(2) Every such prohibited sign, signal, or marking is declared to be a public nuisance, and the authority having jurisdiction over the highway is empowered to remove the same or cause it to be removed without notice.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

Any person who violates any provision of this section commits a class A traffic infraction.

**703. Entering through highway - stop or yield intersection.**

(1) The department of transportation and local authorities, within their respective jurisdictions, may erect and maintain stop signs, yield signs, or other official traffic control devices to designate through highways or to designate intersections or other roadway junctions at which vehicular traffic on one or more of the roadways is directed to yield or to stop and yield before entering the intersection or junction. In the case of state highways, such regulations shall be subject to the provisions of section 43-2-135 (1) (g), C.R.S.

(2) Every sign erected pursuant to subsection (1) of this section shall be a standard sign adopted by the department of transportation.

(3) Except when directed to proceed by a police officer, every driver of a vehicle approaching a stop sign shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it. After having stopped, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time when such driver is moving across or within the intersection or junction of roadways.

(4) The driver of a vehicle approaching a yield sign, in obedience to such sign, shall slow to a speed reasonable for the existing conditions and, if required for safety to stop, shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it. After slowing or stopping, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is

moving across or within the intersection or junction of roadways; except that, if a driver is involved in a collision with a vehicle in the intersection or junction of roadways after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of the driver's failure to yield right-of-way.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

#### **704. Vehicle entering roadway.**

The driver of a vehicle about to enter or cross a roadway from any place other than another roadway shall yield the right-of-way to all vehicles approaching on the roadway to be entered or crossed. Any person who violates any provision of this section commits a class A traffic infraction.

(1) Upon the immediate approach of an authorized emergency vehicle making use of audible or visual signals meeting the requirements of section 213 or 222, the driver of every other vehicle shall yield the right-of-way and where possible shall immediately clear the farthest left hand lane lawfully available to through traffic and shall drive to a position parallel to, and as close as possible to, the right-hand edge or curb of a roadway clear of any intersection and shall stop and remain in that position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer.

(2) (a) A driver in a vehicle shall exhibit due care and caution and proceed as described in subsections (2)(b) and (2)(c) of this section when approaching or passing;

(I) A stationary authorized emergency vehicle that is giving a visual signal by means of flashing, rotating, or oscillating red, blue, or white lights as permitted by section 42-4-213 or 42-4-222, C.R.S.;

(II) A stationary towing carrier vehicle that is giving a visual signal by means of flashing, rotating, or oscillating yellow lights; or

(III) A stationary public utility service vehicle that is giving a visual signal by means of flashing, rotating, or oscillating amber lights.

(b) On a highway with at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary authorized emergency vehicle, stationary towing carrier vehicle, or stationary public utility service vehicle is located, the driver of an approaching or passing vehicle shall proceed with due care and caution and yield the right-of-way by moving into a lane at least one moving lane apart from the stationary authorized emergency vehicle, stationary towing carrier vehicle, or stationary public utility service vehicle unless directed otherwise by a peace officer or other authorized emergency personnel. If movement to an adjacent moving lane is not possible due to weather, road conditions, or the immediate presence

of vehicular or pedestrian traffic, the driver of the approaching vehicle shall proceed in the manner described in subsection (2)(c) of this section.

(c) On a highway that does not have at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary authorized emergency vehicle, stationary towing carrier vehicle, or stationary public utility service vehicle is located, or if movement by the driver of the approaching vehicle into an adjacent moving lane, as described in subsection (2)(b) of this section, is not possible, the driver of an approaching vehicle shall reduce and maintain a safe speed with regard to the location of the stationary authorized vehicle, stationary towing carrier vehicle, or stationary public utility service vehicle; weather conditions, road conditions, and vehicular or pedestrian traffic and proceed with due care and caution, or as directed by a peace officer or other authorized emergency personnel.

(b) **Left turns.** The driver of a vehicle intending to turn left shall approach the turn in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle. Whenever practicable, the left turn shall be made to the left of the center of the intersection so as to leave the intersection or other location in the extreme left-hand lane lawfully available to traffic moving in the same direction as such vehicle on the roadway being entered.

(c) **Two-way left-turn lanes.** Where a special lane for making left turns by drivers proceeding in opposite directions has been indicated by official traffic control devices in the manner prescribed in the state traffic control manual, a left turn shall not be made from any other lane, and a vehicle shall not be driven in said special lane except when preparing for or making a left turn from or into the roadway or when preparing for or making a U-turn when otherwise permitted by law.

(2) The driver of any vehicle shall not turn such vehicle at an intersection or any other location so as to proceed in the opposite direction unless such movement can be made in safety and without interfering with or endangering other traffic.

(3) Local authorities, within their respective jurisdictions, subject to the provisions of section 43-2-135 (1) (g), C.R.S., in the case of streets which are state highways, may erect "U-turn" prohibition or restriction signs at intersections or other locations where such movements are deemed to be hazardous, and, whenever official signs are so erected, no driver of a vehicle shall disobey the instructions thereof.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) When an obstruction exists making it necessary to drive to the left of the center of the highway; but any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;

(c) Upon a roadway divided into three lanes for traffic under the rules applicable thereon; or

(d) Upon a roadway restricted to one-way traffic as indicated by official traffic control devices.

(2) Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(3) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes or except as permitted under subsection (1) (b) of this section. However, this subsection (3) does not prohibit the crossing of the center line in making a left turn into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

**1002. Passing oncoming vehicles.**

(1) Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and, upon roadways having width for not more than one lane of traffic in each direction, each driver shall give to the other at least one-half of the main traveled portion of the roadway as nearly as possible.

(2) A driver shall not pass a bicyclist moving in the same direction and in the same lane when there is oncoming traffic unless the driver can simultaneously:

(a) Allow oncoming vehicles at least one-half of the main-traveled portion of the roadway in accordance with subsection (1) of this section; and

(b) Allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

**1003. Overtaking a vehicle on the left.**

(1) The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to the limitations, exceptions, and special rules stated in this section and sections 1004 to 1008:

(a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left of the vehicle at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(b) The driver of a motor vehicle overtaking a bicyclist proceeding in the same direction shall allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(c) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of the driver's vehicle until completely passed by the overtaking vehicle.

(2) Any person who violates any provision of this section commits a class A traffic infraction.

**1004. When overtaking on the right is permitted.**

(1) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) When the vehicle overtaken is making or giving indication of making a left turn;

(b) Upon a street or highway with unobstructed pavement not occupied by parked vehicles and marked for two or more lanes of moving vehicles in each direction; or

(c) Upon a one-way street or upon any roadway on which traffic is restricted to one direction of movement where the roadway is free from obstructions and marked for two or more lanes of moving vehicles.

(1.5) The driver of a motor vehicle upon a one-way roadway with two or more marked traffic lanes, when overtaking a bicyclist proceeding in the same direction and riding on the left-hand side of the road, shall allow the bicyclist at least a three-foot separation between the left side of the driver's vehicle, including all mirrors or other projections, and the right side of the bicyclist at all times.

(2) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

#### **1005. Limitations on overtaking on the left.**

(1) No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this Code and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completed without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and, in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any approaching vehicle.

(2) No vehicle shall be driven on the left side of the roadway under the following conditions:

(a) When approaching or upon the crest of a grade or a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

(b) When approaching within one hundred feet of or traversing any intersection or railroad grade crossing; or

(c) When the view is obstructed upon approaching within one hundred feet of any bridge, viaduct, or tunnel.

(3) Local authorities are authorized to determine those portions of any highway under their respective jurisdictions where overtaking and passing or driving on the left side of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones. Where such signs or markings are in place to define a no-passing zone and such signs or markings are clearly visible to an ordinarily observant person, no driver shall drive on the left side of the roadway within such no-passing

zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

(4) The provisions of this section shall not apply:

(a) Upon a one-way roadway;

(b) Under the conditions described in section 1001 (1) (b);

(c) To the driver of a vehicle turning left into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway; or

(d) To the driver of a vehicle passing a bicyclist moving the same direction and in the same lane when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

#### **1006. One-way roadways and rotary traffic islands.**

(1) Upon a roadway restricted to one-way traffic, a vehicle shall be driven only in the direction designated at all or such times as shall be indicated by official traffic control devices.

(2) A vehicle passing around a rotary traffic island shall be driven only to the right of such island.

(3) Local authorities with respect to highways under their respective jurisdictions may designate any roadway, part of a roadway, or specific lanes upon which vehicular traffic shall proceed in one direction at all or such times as shall be indicated by official traffic control devices. In the case of streets which are a part of the state highway system, the regulation shall be subject to the approval of the department of transportation pursuant to section 43-2-135 (1) (g), C.R.S.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

#### **1007. Driving on roadways laned for traffic.**

(1) Whenever any roadway has been divided into two or more clearly marked lanes for traffic, the following rules in addition to all others consistent with this section shall apply:

(a) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into three lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to the traffic moving in the direction the

vehicle is proceeding and is designated by official traffic control devices to give notice of such allocation. Under no condition shall an attempt be made to pass upon the shoulder or any portion of the roadway remaining to the right of the indicated right-hand traffic lane.

(c) Official traffic control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such device.

(d) Official traffic control devices may be installed prohibiting the changing of lanes on sections of roadway, and drivers of vehicles shall obey the directions of every such device.

(2) (a) The department of transportation may designate with signage an area on a roadway not otherwise laned for traffic for use by commercial vehicles, as defined in section 235(1)(a), that are designed to transport sixteen or more passengers, including the driver, and that are operated by a governmental entity or government-owned business that transports the general public or by a contractor on behalf of such an entity or government-owned business. Use of such an area is limited to vehicles authorized by the department operating under conditions of use established by the department but, subject to the conditions of use, the driver of an authorized vehicle has sole discretion to decide whether or not to drive on such an area based on the driver's assessment of the safety of doing so. The department shall consult with the Colorado state patrol before granting authorization for the use of the area and establishing conditions of use. The department shall impose and each authorized user shall acknowledge the conditions for use by written agreement, and the department need not note the conditions of use in roadway signage. An authorized user does not violate this section or section 1004 when operating in accordance with the conditions of use for an area imposed by the department and acknowledged by the user in a written agreement.

(b) The department of transportation shall work with local governmental agencies in implementing the provisions of this subsection (2).

(3) Any person who violates any provision of this section commits a class A traffic infraction.

#### **1008. Following too closely.**

(1) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

(2) The driver of any motor truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another motor truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger; except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.

(3) Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

**1008.5. Crowding or threatening bicyclist.**

(1) The driver of a motor vehicle shall not, in a careless and imprudent manner, drive the vehicle unnecessarily close to, toward, or near a bicyclist.

(2) Any person who violates subsection (1) of this section commits careless driving as described in section 1402.

**1009. Coasting prohibited.**

(1) The driver of any motor vehicle when traveling upon a downgrade shall not coast with the gears or transmission of such vehicle in neutral.

(2) The driver of a truck or bus when traveling upon a downgrade shall not coast with the clutch disengaged.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

**1010. Driving on divided or controlled-access highways.**

(1) Whenever any highway has been divided into separate roadways by leaving an intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the right-hand roadway, unless directed or permitted to use another roadway by official traffic control devices. No vehicle shall be driven over, across, or within any such dividing space, barrier, or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection as established, unless specifically prohibited by official signs and markings or by the provisions of section 42-4-902, C.R.S. However, this subsection (1) does not prohibit a left turn across a median island formed by standard pavement markings or other mountable or traversable devices as prescribed in the state traffic control manual when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(2) (a) No person shall drive a vehicle onto or from any controlled-access roadway except at such entrances and exits as are established by public authority.

(b) Wherever an acceleration lane has been provided in conjunction with a ramp entering a controlled-access highway and the ramp intersection is not designated or signed as a stop or yield intersection as provided in section 703 (1), drivers may use the acceleration lane to attain a safe speed for merging with through traffic when conditions permit such acceleration with safety. Traffic so merging shall be subject to the rule governing the changing of lanes as set forth in section 1007 (1) (a).

(c) Wherever a deceleration lane has been provided in conjunction with a ramp leaving a controlled-access highway, drivers shall use such lane to slow to a safe speed for making an exit turn after leaving the mainstream of faster-moving traffic.

(3) Local authorities may by ordinance consistent with the provisions of section 43-2-135 (1) (g), C.R.S., with respect to any controlled-access highway under their respective jurisdictions, prohibit the use of any such highway by any class or kind of traffic which is found to be incompatible with the normal and safe movement of traffic. After adopting such prohibitory regulations shall install official traffic control devices in conformity with the standards established by sections 601 and 602 at entrance points or along the highway on which such regulations are applicable. When such devices are so in place, giving notice thereof, no person shall disobey the restrictions made known by such devices.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

**1011. Use of runaway vehicle ramps.**

(1) No person shall use a runaway vehicle ramp unless such person is in an emergency situation requiring use of the ramp to stop such person's vehicle.

(2) No person shall stop, stand, or park a vehicle on a runaway vehicle ramp or in the pathway of the ramp.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

### **1012. High occupancy vehicle (HOV) and high occupancy toll (HOT) lanes.**

(1) Local authorities, with respect to streets and highways under their respective jurisdictions, may designate exclusive or preferential lanes for vehicles that carry a specified number of persons. The occupancy level of vehicles and the time of day when lane usage is restricted to high occupancy vehicles, if applicable, shall be designated by official traffic control devices.

(2) A motorcycle may be operated upon high occupancy vehicle lanes pursuant to section 163 of Public Law 97-424 or upon high occupancy toll lanes, unless prohibited by official traffic control devices.

(2.5) (a) (I) Except as otherwise provided in paragraph (d) of this subsection (2.5), a motor vehicle with a gross vehicle weight of twenty-six thousand pounds or less that is either an inherently low-emission vehicle or a hybrid vehicle may be operated upon high occupancy vehicle lanes without regard to the number of persons in the vehicle and without payment of a special toll or fee. The exemption relating to hybrid vehicles shall apply only if such exemption does not affect the receipt of federal funds and does not violate any federal laws or regulations.

(II) As used in this subsection (2.5), “inherently low-emission vehicle” or “ILEV” means:

(A) A light-duty vehicle or light-duty truck, regardless of whether such vehicle or truck is part of a motor vehicle fleet, that has been certified by the federal environmental protection agency as conforming to the ILEV guidelines, procedures, and standards as published in the federal register at 58 FR 11888 (March 1, 1993) and 59 FR 50042 (September 30, 1994), as amended from time to time; and

(B) A heavy-duty vehicle powered by an engine that has been certified as set forth in subparagraph (A) of this subparagraph (II).

(III) As used in this subsection (2.5), “hybrid vehicle” means a motor vehicle with a hybrid propulsion system that uses an alternative fuel by operating on both an alternative fuel, including electricity, and a traditional fuel.

(b) No person shall operate a vehicle upon a high occupancy vehicle lane pursuant to this subsection (2.5) unless the vehicle:

(I) Meets all applicable federal emission standards set forth in 40 CFR sec. 88.311-93, as amended from time to time, or, subject to subparagraph (I) of paragraph (a) of this subsection (2.5), is a hybrid vehicle; and

(II) Is identified by means of a circular sticker or decal at least four inches in diameter, made of bright orange reflective material, and affixed either to the windshield, to the front of the side view mirror on the driver’s side, or to the front bumper of the vehicle. Said sticker or decal shall be approved by the Colorado department of transportation.

(c) Local authorities, with respect to streets and highways under their respective jurisdictions, shall provide information via official traffic control devices to indicate that ILEVs

and, subject to subparagraph (I) of paragraph (a) of this subsection (2.5), hybrid vehicles may be operated upon high occupancy vehicle lanes pursuant to this section. Such information may, but need not, be added to existing printed signs, but as existing printed signs related to high occupancy vehicle lane use are replaced or new ones are erected, such information shall be added. In addition, whenever existing electronic signs are capable of being reprogrammed to carry such information, they shall be so reprogrammed by September 1, 2003.

(d) (I) In consultation with the regional transportation district, the department of transportation and local authorities, with respect to streets and highways under their respective jurisdictions, shall, in connection with their periodic level-of-service evaluation of high occupancy vehicle lanes, perform a level-of-service evaluation of the use of high occupancy vehicle lanes by ILEVs and hybrid vehicles. If the use of high occupancy vehicle lanes by ILEVs or hybrid vehicles is determined to cause a significant decrease in the level of service for other bona fide users of such lanes, then the department of transportation or a local authority may restrict or eliminate use of such lanes by ILEVs or hybrid vehicles.

(II) If the United States secretary of transportation makes a formal determination that, by giving effect to paragraph (a) of this subsection (2.5) on a particular highway or lane, the state of Colorado would disqualify itself from receiving federal highway funds the state would otherwise qualify to receive or would be required to refund federal transportation grant funds it has already received, then said paragraph (a) shall not be effective as to such highway or lane.

(3) (a) Any person who uses a high occupancy vehicle lane in violation of restrictions imposed by local authorities commits a class A traffic infraction.

(b) Any person convicted of a third or subsequent offense of paragraph (a) of this subsection (3) committed within a twelve-month period shall be subject to an increased penalty pursuant to section 1701 (4) (a) (I) (K).

### **1013. Passing lane - definitions - penalty.**

(1) A person shall not drive a motor vehicle in the passing lane of a highway if the speed limit is sixty-five miles per hour or more unless such person is passing other motor vehicles that are in a non-passing lane or turning left, or unless the volume of traffic does not permit the motor vehicle to safely merge into a non-passing lane.

(2) For the purposes of this section:

(a) "Non-passing lane" means any lane that is to the right of the passing lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway.

(b) "Passing lane" means the farthest to the left lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway; except that, if such left lane is restricted to high occupancy vehicle use or is designed for left turns only, the passing lane shall be the lane immediately to the right of such high occupancy lane or left-turn lane.

(3) A person who violates this section commits a class A traffic infraction.

## **PART 11 SPEED REGULATIONS**

### **1101. Speed limits.**

(1) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions then existing.

(2) Except when a special hazard exists that requires a lower speed, the following speeds shall be lawful:

(a) Twenty miles per hour on narrow, winding mountain highways or on blind curves;

(b) Twenty-five miles per hour in any business district, as defined in section 42-1-102(11), C.R.S.;

(c) Thirty miles per hour in any residence district, as defined in section 42-1-102(80), C.R.S.;

(d) Forty miles per hour on open mountain highways;

(e) Forty-five miles per hour for all single rear axle vehicles in the business of transporting trash that exceed twenty thousand pounds, where higher speeds are posted, when said vehicle is loaded as an exempted vehicle pursuant to section 507 (3);

(f) Fifty-five miles per hour on other open highways which are not on the interstate system, as defined in section 43-2-101 (2), C.R.S., and are not surfaced, four-lane freeways or expressways;

(g) Sixty-five miles per hour on surfaced, four-lane highways which are on the interstate system, as defined in section 43-2-101 (2), C.R.S., or are freeways or expressways;

(h) Any speed not in excess of a speed limit designated by an official traffic control device.

(3) No driver of a vehicle shall fail to decrease the speed of such vehicle from an otherwise lawful speed to a reasonable and prudent speed when a special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions.

(4) Except as otherwise provided in paragraph (c) of subsection (8) of this section, any speed in excess of the lawful speeds set forth in subsection (2) of this section shall be prima facie evidence that such speed was not reasonable or prudent under the conditions then existing. As used in this subsection (4), "prima facie evidence" means evidence which is sufficient proof that the speed was not reasonable or prudent under the conditions then existing, and which will remain sufficient proof of such fact, unless contradicted and overcome by evidence bearing upon the question of whether or not the speed was reasonable and prudent under the conditions then existing.

(5) In every charge of violating subsection (1) of this section, the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the alleged reasonable and prudent speed applicable at the specified time and location of the alleged violation.

(6) The provisions of this section shall not be construed to relieve the party alleging negligence under this section in any civil action for damages from the burden of proving that such negligence was the proximate cause of an accident.

(7) Notwithstanding paragraphs (a), (b), and (c) of subsection (2) of this section, any city or town may by ordinance adopt absolute speed limits as the maximum lawful speed limits in its jurisdiction, and such speed limits shall not be subject to the provisions of subsection (4) of this section.

(8) (a) (Deleted by amendment, L. 96, p. 578, § 2, effective May 25, 1996.)

(b) Notwithstanding any other provisions of this section, no person shall drive a vehicle on a highway at a speed in excess of a maximum lawful speed limit of seventy-five miles per hour.

(c) The speed limit set forth in paragraph (b) of this subsection (8) is the maximum lawful speed limit and is not subject to the provisions of subsection (4) of this section.

(d) Local authorities within their respective jurisdictions shall not authorize any speed limit which exceeds seventy-five miles per hour on any highway.

(e) The provisions of this subsection (8) are declared to be matters of both local and statewide concern requiring uniform compliance throughout the state.

(f) In every charge of a violation of paragraph (b) of this subsection (8), the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the maximum lawful speed limit of seventy-five miles per hour.

(g) Notwithstanding any other provision of this section, no person shall drive a low-power scooter on a roadway at a speed in excess of forty miles per hour. Local authorities shall not authorize low-power scooters to exceed forty miles per hour on a roadway.

(9) The conduct of a driver of a vehicle which would otherwise constitute a violation of this section is justifiable and not unlawful when:

(a) It is necessary as an emergency measure to avoid an imminent public or private injury which is about to occur by reason of a situation occasioned or developed through no conduct of said driver and which is of sufficient gravity that, according to ordinary standards of intelligence and morality, the desirability and urgency of avoiding the injury clearly outweigh the desirability of avoiding the consequences sought to be prevented by this section; or

(b) With respect to authorized emergency vehicles, the applicable conditions for exemption, as set forth in section 108, exist.

(10) The minimum requirement for commission of a traffic infraction or misdemeanor traffic offense under this section is the performance by a driver of prohibited conduct, which includes a voluntary act or the omission to perform an act which said driver is physically capable of performing.

(11) It shall not be a defense to prosecution for a violation of this section that:

(a) The defendant's conduct was not performed intentionally, knowingly, recklessly, or with criminal negligence; or

(b) The defendant's conduct was performed under a mistaken belief of fact, including, but not limited to, a mistaken belief of the defendant regarding the speed of the defendant's vehicle; or

(c) The defendant's vehicle has a greater operating or fuel-conserving efficiency at speeds greater than the reasonable and prudent speed under the conditions then existing or at speeds greater than the maximum lawful speed limit.

(12) (a) A violation of driving one to twenty-four miles per hour in excess of the reasonable and prudent speed or in excess of the maximum lawful speed limit of seventy-five miles per hour is a class A traffic infraction.

(b) A violation of driving twenty-five or more miles per hour in excess of the reasonable and prudent speed or in excess of the maximum lawful speed limit of seventy-five miles per hour is a class 2 misdemeanor traffic offense; except that such violation within a maintenance, repair, or construction zone, designated pursuant to section 614, is a class 1 misdemeanor traffic offense.

(c) A violation under subsection (3) of this section is a class A traffic infraction.

### **1102. Altering of speed limits.**

(1)(a) Whenever local authorities determine upon the basis of a traffic investigation or survey or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof that any speed specified or established as authorized under sections 1101 to 1104 is greater or less than is reasonable or safe under the road and traffic conditions at any intersection or other place or upon any part of a state highway under its jurisdiction, said local authority shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or upon the approaches thereto; except that no speed limit in excess of seventy-five miles per hour shall be authorized by said local authority.

(b) Repealed.

(2) Whenever county or municipal authorities within their respective jurisdictions determine upon the basis of a traffic investigation or survey, or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof, that any speed specified or established as authorized under sections 1101 to 1104 is greater or less than is reasonable or safe under the road and traffic conditions at any intersection or other place or upon any part of a street or highway in its jurisdiction, said local authority shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or upon the approaches thereto. No such local authority shall have the power to alter the basic rules set forth in section 1101 (1) or in any event to authorize by resolution or ordinance a speed in excess of seventy-five miles per hour.

(3) Local municipal authorities within their respective jurisdictions shall determine upon the basis of a traffic investigation or survey the proper speed for all arterial streets and shall

declare a reasonable and safe speed limit thereon which may be greater or less than the speed specified under section 1101 (2) (b) or (2) (c). Such speed limit shall not exceed seventy-five miles per hour and shall become effective when appropriate signs are erected giving notice thereof. For purposes of this subsection (3), an “arterial street” means any United States or state-numbered route, controlled-access highway, or other major radial or circumferential street or highway designated by local authorities within their respective jurisdictions as part of a major arterial system of streets or highways.

(4) No alteration of speed limits on state highways within cities, cities and counties, and incorporated towns is effective until it has been approved in writing by the department of transportation. Upon the request of any incorporated city or town, the department of transportation shall conduct any traffic investigation or survey that is deemed to be warranted for determination of a safe and reasonable speed limit on any street or portion thereof that is a state highway. In conducting such a traffic investigation, the department may receive and consider traffic and engineering data provided by the city or county engineer of any requesting local government that will be impacted by a proposed alteration of speed limits. Any speed limit so determined by the department becomes effective when declared by the local authority and made known by official signs conforming to the state traffic control manual.

(5) Whenever the local authorities, within their respective jurisdictions, determine upon the basis of a traffic investigation or survey that a reduced speed limit is warranted in a school or construction area or other place during certain hours or periods of the day when special or temporary hazards exist, the department or the concerned local authority may erect or display official signs of a type prescribed in the state traffic control manual giving notice of the appropriate speed limit for such conditions and stating the time or period the regulation is effective. When such signs are erected or displayed, the lawful speed limit at the particular time and place shall be that which is then indicated upon such signs; except that no such speed limit shall be less than twenty miles per hour on a state highway or other arterial street as defined in subsection (3) of this section nor less than fifteen miles per hour on any other road or street, nor shall any such reduced speed limit be made applicable at times when the special conditions for which it is imposed cease to exist. Such reduced speed limits on streets which are state highways shall be subject to the written approval of the department of transportation before becoming effective.

(6) In its discretion, a municipality, by ordinance, or a county, by resolution of the board of county commissioners, may impose and enforce stop sign regulations and speed limits, not inconsistent with the provisions of sections 1101 to 1104, upon any way which is open to travel by motor vehicles and which is privately maintained in mobile home parks, when appropriate signs giving notice of such enforcement are erected at the entrances to such ways. Unless there is an agreement to the contrary, the jurisdiction ordering the regulations shall be responsible for the erection and maintenance of the signs.

(7) Any powers granted in this section to county or municipal authorities may be exercised by such authorities or by any municipal officer or employee who is designated by ordinance to exercise such powers.

### **1103. Minimum speed regulation.**

(1) No person shall drive a motor vehicle on any highway at such a slow speed as to impede or block the normal and reasonable forward movement of traffic, except when a reduced speed is necessary for safe operation of such vehicle or in compliance with law.

(2) Whenever the department of transportation or local authorities within their respective jurisdictions determine, on the basis of an engineering and traffic investigation as described in the state traffic control manual, that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, said department or such local authority may determine and declare a minimum speed limit below which no person shall drive a vehicle, except when necessary for safe operation or in compliance with law.

(3) Notwithstanding any minimum speed that may be authorized and posted pursuant to this section, if any person drives a motor vehicle on a highway outside an incorporated area or on any controlled-access highway at a speed less than the normal and reasonable speed of traffic under the conditions then and there existing and by so driving at such slower speed impedes or retards the normal and reasonable movement of vehicular traffic following immediately behind, then such driver shall:

(a) Where the width of the traveled way permits, drive in the right-hand lane available to traffic or on the extreme right side of the roadway consistent with the provisions of section 1001 (2) until such impeded traffic has passed by; or

(b) Pull off the roadway at the first available place where such movement can safely and lawfully be made until such impeded traffic has passed by.

(4) Wherever special uphill traffic lanes or roadside turnouts are provided and posted, drivers of all vehicles proceeding at less than the normal and reasonable speed of traffic shall use such lanes or turnouts to allow other vehicles to pass or maintain normal traffic flow.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

### **1104. Speed limits on elevated structures.**

(1) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when such structure is signposted as provided in this section.

(2) The department of transportation upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and, if it finds that such structure cannot with safety to itself withstand vehicles traveling at the speed otherwise permissible under sections 1101 to 1104, said

department shall determine and declare the maximum speed of vehicles which such structure can withstand and shall cause or permit suitable standard signs stating such maximum speed to be erected and maintained before each end of such structure in conformity with the state traffic control manual.

(3) Upon the trial of any person charged with a violation of this section, proof of said determination of the maximum speed by said department and the existence of said signs shall constitute conclusive evidence of the maximum speed which can be maintained with safety to such bridge or structure.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

### **1105. Speed contests - speed exhibitions - aiding and facilitating - immobilization of motor vehicle - definitions.**

(1) (a) Except as otherwise provided in subsection (4) of this section, it is unlawful for a person to knowingly engage in a speed contest on a highway.

(b) For purposes of this section, "speed contest" means the operation of one or more motor vehicles to conduct a race or a time trial, including but not limited to rapid acceleration, exceeding reasonable and prudent speeds for highways and existing traffic conditions, vying for position, or performing one or more lane changes in an attempt to gain advantage over one or more of the other race participants.

(c) A person who violates any provision of this subsection (1) commits a class 1 misdemeanor traffic offense.

(2) (a) Except as otherwise provided in subsection (4) of this section, it is unlawful for a person to knowingly engage in a speed exhibition on a highway.

(b) For purposes of this section, "speed exhibition" means the operation of a motor vehicle to present a display of speed or power. "Speed exhibition" includes, but is not limited to, squealing the tires of a motor vehicle while it is stationary or in motion, rapid acceleration, rapid swerving or weaving in and out of traffic, producing smoke from tire slippage, or leaving visible tire acceleration marks on the surface of the highway or ground.

(c) A person who violates any provision of this subsection (2) commits a class 2 misdemeanor traffic offense.

(3) (a) Except as otherwise provided in subsection (4) of this section, a person shall not, for the purpose of facilitating or aiding or as an incident to any speed contest or speed exhibition upon a highway, in any manner obstruct or place a barricade or obstruction, or assist or participate in placing any such barricade or obstruction, upon a highway.

(b) A person who violates any provision of this subsection (3) commits, pursuant to section 1703, the offense that the person aided in or facilitated the commission of. Nothing in this subsection (3) shall be construed to preclude charging a person under section 1703 for otherwise being a party to the crime of engaging in a speed contest or engaging in a speed exhibition.

(4) The provisions of this section shall not apply to the operation of a motor vehicle in an organized competition according to accepted rules on a designated and duly authorized race track, race course, or drag strip.

(5) (a) In addition to a sentence imposed pursuant to this section or pursuant to any other provision of law:

(I) Upon the second conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this section, the court may, in its discretion, order the primary law enforcement agency involved with the case to place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to fourteen days.

(II) Upon the third or subsequent conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this section, the court may, in its discretion, order the primary law enforcement agency involved with the case to place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to thirty days but more than fourteen days.

(b) The period during which a motor vehicle may be fitted with an immobilization device pursuant to paragraph (a) of this subsection (5) shall be in addition to any period during which the motor vehicle was impounded prior to sentencing.

(c) An order issued under this subsection (5) shall state the requirements included in subsections (7) and (8) of this section.

(d) For purposes of this section, “immobilization device” means a device locked into place over a wheel of a motor vehicle that prevents the motor vehicle from being moved. “Immobilization device” includes but is not limited to a device commonly referred to as a “traffic boot” or “boot”.

(6) (a) Except as otherwise provided in subsection (9) of this section, a law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall attempt to locate the motor vehicle within its jurisdiction. The law enforcement agency may, in its discretion, attempt to locate the motor vehicle outside of its jurisdiction.

(b) Nothing in this subsection (6) shall be construed to:

(I) Prohibit a law enforcement agency from seeking the assistance of another law enforcement agency for the purpose of placing an immobilization device on a motor vehicle or removing the device in accordance with this section; or

(II) Require a law enforcement agency to expend excessive time or commit excessive staff to the task of locating a motor vehicle subject to immobilization under this section.

(c) The time spent by a law enforcement agency in locating a motor vehicle in accordance with this subsection (6) shall not alter the immobilization period ordered by the court under subsection (5) of this section.

(d) A law enforcement agency that places an immobilization device on a motor vehicle pursuant to this section shall affix a notice to the immobilized motor vehicle stating the information described in subsections (7) and (8) of this section.

(e) A peace officer who locates or attempts to locate a motor vehicle, or who places or removes, or assists with the placement or removal of, an immobilization device in accordance with the provisions of this section shall be immune from civil liability for damages, except for damages arising from willful and wanton conduct.

(7) (a) The owner of a motor vehicle immobilized under this section shall be assessed a fee of thirty-five dollars for each day the motor vehicle is ordered immobilized and, except as otherwise provided in paragraph (d) of this subsection (7), thirty-five dollars for each day up to fourteen days after the immobilization period that the fee for the immobilization period is not paid. The owner shall pay the fee to the law enforcement agency that places the immobilization device on the motor vehicle.

(b) The owner, within fourteen days after the end of the immobilization period ordered by the court, may obtain removal of the immobilization device by the law enforcement agency that placed it by requesting the removal and paying the fee required under paragraph (a) of this subsection (7).

(c) The failure of the owner of the immobilized motor vehicle to request removal of the immobilization device and pay the fee within fourteen days after the end of the immobilization period ordered by the court or within the additional time granted by the court pursuant to paragraph (d) of this subsection (7), whichever is applicable, shall result in the motor vehicle being deemed an “abandoned motor vehicle”, as defined in sections 1802 (1) (d) and 2102 (1) (d), and subject to the provisions of part 18 or 21 of this Code, whichever is applicable. The law enforcement agency entitled to payment of the fee under this subsection (7) shall be eligible to recover the fee if the abandoned motor vehicle is sold, pursuant to section 1809 (2)(b.5) or 2108 (2) (a.5).

(d) Upon application of the owner of an immobilized motor vehicle, the court that ordered the immobilization may, in its discretion, grant additional time to pay the immobilization fee required under paragraph (a) of this subsection (7). If additional time is granted, the court shall notify the law enforcement agency that placed the immobilization device.

(8) (a) A person may not remove an immobilization device that is placed on a motor vehicle pursuant to this section during the immobilization period ordered by the court.

(b) No person may remove the immobilization device after the end of the immobilization period except the law enforcement agency that placed the immobilization device and that has been requested by the owner to remove the device and to which the owner has properly paid the fee required by subsection (7) of this section. Nothing in this subsection (8) shall be construed to prevent the removal of an immobilization device in order to comply with the provisions of part 18 or 21 of this Code.

(c) A person who violates any provision of this subsection (8) commits a class 2 misdemeanor traffic offense.

(9) (a) A law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall inform the court at sentencing if it is unable to comply with the court's order either because the law enforcement agency is not yet equipped with an immobilization device or because it does not have a sufficient number of immobilization devices. The court, upon being so informed, shall, in lieu of ordering immobilization, order the law enforcement agency to impound the motor vehicle for the same time period that the court initially ordered the motor vehicle to be immobilized.

(b) If a motor vehicle is ordered to be impounded pursuant to paragraph (a) of this subsection (9), the provisions of subsections (6) to (8) of this section shall not apply.

(2) Use of plate or placard.

(a) A person with a disability may use reserved parking on public property or private property if the person displays an identifying plate or placard while using reserved parking.

(b) When an identifying placard is used for reserved parking, the driver of the parked motor vehicle shall ensure that the front of the identifying placard is legible and visible through the windshield when viewed from outside the vehicle. The driver shall hang the placard from the rear-view mirror unless a rear-view mirror is not available or the individual is physically unable to hang the placard from the rear-view mirror. If the tag is not hung from the rear-view mirror, the driver shall display it on the dashboard.

(c) A person with a disability who is a resident of a state other than Colorado may use reserved parking in Colorado if the motor vehicle displays an identifying plate or placard issued by a state other than Colorado, and if:

(I) The identifying plate or placard is currently valid in the state of issuance and meets the requirements of 23 CFR 1235; and

(II) The holder has not been a resident in Colorado for more than ninety days.

(d) A motor vehicle with an identifying plate or a placard may be parked in public parking areas along public streets or in private parking lots regardless of any time limitation imposed upon parking in the area; except that a jurisdiction may specifically limit reserved parking on any public street to no less than four hours. To limit reserved parking, the jurisdiction must clearly post the appropriate time limits in the area. The ability to park notwithstanding parking limitations does not apply to areas in which:

(I) Stopping, standing, or parking of all vehicles is prohibited;

(II) Only special vehicles may be parked; or

(III) Parking is not allowed during specific periods of the day in order to accommodate heavy traffic.

(e) (I) The owner of public or private property may request the installation of official signs or pavement markings identifying reserved parking spaces. An officer may enforce this section on private property notwithstanding any provision of law to the contrary.

(II) (A) The number and placement of accessible parking spaces should meet or exceed section 1106 of chapter 11 of the 2012 (second printing) version of the international building code, or any succeeding standard, published by the international code council.

(III) The owner of real property with multiple-family dwellings affixed and with reserved parking shall retain the reserved parking as commonly owned for the tenants, owners, or visitors of the individual units within the dwellings. This subparagraph (III) does not prohibit the sale of all commonly owned property so long as the reserved parking is not severed from the other elements.

(IV) A person shall not impose restrictions on the use of disabled parking unless specifically authorized by a statute of Colorado and a resolution of or ordinance of a political subdivision of Colorado and notice of the restriction is prominently posted by a sign clearly visible at the parking space.

(3) Misuse of reserved parking.

(a) A person without a disability shall not park in a parking space on public or private property that is clearly identified by an official sign or by visible pavement markings as being reserved parking or as being a passenger loading zone unless:

(I) The person is parking the vehicle for the direct benefit of a person with a disability to enter or exit the vehicle while it is parked in the reserved parking space; and

(II) An identifying plate or placard obtained under or authorized by section 42-3-204, C.R.S., is displayed in or on the vehicle if the license plate or placard is currently valid or has expired less than one month before the day the person used the reserved parking.

(a.5) A person shall not, while parked in a parking space that requires remuneration, display a remuneration-exempt identifying placard that is not issued to the person. A person who possesses a remuneration-exempt identifying placard shall not allow another person to use the placard to park in a parking space that requires remuneration.

(b) (I) A person, after using a reserved parking space that has a time limit, shall not switch motor vehicles or move the motor vehicle to another reserved parking space within one hundred yards of the original parking space within the same eight hours in order to exceed the time limit.

(II) (A) Parking in a time-limited reserved parking space for more than three hours for at least three days a week for at least two weeks creates a rebuttable presumption that the person is violating this paragraph (b).

(B) This subparagraph (II) does not apply to privately owned parking spaces.

(c) A person shall not use reserved parking for a commercial purpose unless:

(I) The purpose relates to transacting business with a business the reserved parking is intended to serve; or

(III) (A) It is an affirmative defense to a violation of this paragraph (d) for the chief operations officer within Colorado that the entity enforces an internal policy controlling access to and use of identifying placards issued to the entity.

(B) If the placard used is expired by operation of section 42-3-204(6)(f), C.R.S., it is an affirmative defense to a violation of this paragraph (d) that the person did not know the placard was expired if the person who used the placard was the person to whom it was issued.

(a) Regardless of whether a person displays an identifying plate or placard, a person shall not park a vehicle so as to block reasonable access to curb ramps, passenger loading zones, or accessible routes, as identified in 28 CFR part 36 appendix A, that are clearly identified unless the person is actively loading or unloading a person with a disability.

(b) A person who violates this subsection (4) is subject to the penalties in section 42-4-1701(4)(a)(VIII), C.R.S.

(5) Fraud and trafficking. A person is subject to the penalties in section 42-4-1701(4)(a)(X), C.R.S., if the person:

(a) Knowingly and fraudulently obtains, possesses, uses, or transfers an identifying placard issued to a person with a disability;

(b) Knowingly makes, possesses, uses, alters, or transfers what purports to be, but is not, an identifying placard; or

(6) Enforcement of reserved parking.

(a) A peace officer or authorized and uniformed parking enforcement official may check the identification of a person using an identifying plate or placard in order to determine whether the use is authorized.

(b) (I) A peace officer or authorized and uniformed parking enforcement official may confiscate an identifying placard that is being used in violation of this section.

(II) The peace officer or parking enforcement official shall send a confiscated placard to the department unless it is being held as evidence for prosecution of a violation of this section. If the tag is being held as evidence, the peace officer or parking enforcement official shall notify the department of the confiscation and pending charges.

(III) The department shall hold a confiscated placard for thirty days and may dispose of the placard after thirty days. The department shall release the placard to the person with a disability to whom it was issued when the person signs a statement under penalty of perjury that he or she was unaware that the violator used, or intended to use, the placard in violation of this section.

(c) A peace officer and the department may investigate an allegation that a person is violating this section.

(d) A person who observes a violation of this section may submit evidence, including a sworn statement, concerning the violation to any law enforcement agency.

(e) (I) A peace officer may issue a penalty assessment notice for a violation of paragraph (b), (c), or (d) of subsection (3) of this section by sending it by certified mail to the registered owner of the motor vehicle. The peace officer shall include in the penalty assessment notice the offense or infraction, the time and place where it occurred, and a statement that the payment of the penalty assessment and a surcharge is due within twenty days after the issuance of the notice. The department receives payment of the penalty assessment by the due date if the payment is received or postmarked by the twentieth day after the vehicle owner received the penalty assessment notice.

(II) If the penalty assessment and surcharge are not paid within twenty days after the date the vehicle owner receives the assessment notice specified in subparagraph (I) of this paragraph (e), the peace officer who issued the original penalty assessment notice shall file a complaint with a court having jurisdiction and issue and serve upon the registered owner of the vehicle a summons to appear in court at the time and place specified.

(f) (I) The entering court shall send certification of the entry of judgment for each violation of paragraph (b), (c), or (d) of subsection (3) of this section to the department.

(II) Upon receipt of certification of an entry of judgment for a violation of paragraph (b), (c), or (d) of subsection (3) of this section, the department shall not register the person's vehicle until all fines imposed for the violations have been paid.

(III) Upon receipt of certification or independent verification of an entry of judgment, the department shall revoke an identifying plate or placard as provided in section 42-3-204(7)(d), C.R.S.

(g) (I) Notwithstanding any other provision of this section to the contrary, a holder is liable for any penalty or fine as set forth in this section or section 42-3-204, C.R.S., or for any misuse of an identifying plate or placard, including the use of such plate or placard by any person other than a holder, unless the holder furnishes sufficient evidence that the identifying plate or placard was, at the time of the violation, in the care, custody, or control of another person without the holder's knowledge or consent.

(II) A holder may avoid the liability described in subparagraph (I) of this paragraph (g) if, within a reasonable time after notification of the violation, the holder furnishes to the prosecutorial division of the appropriate jurisdiction the name and address of the person who had the care, custody, or control of the identifying plate or placard at the time of the violation or the holder reports the license plate or placard lost or stolen to both the appropriate local law enforcement agency and the department.

(h) An employer shall not forbid an employee from reporting violations of this section. A person shall not initiate or administer any disciplinary action against an employee because the employee notified the authorities of a possible violation of this section if the employee has a good-faith belief that a violation has occurred.

(i) A landlord shall not retaliate against a tenant because the tenant notified the authorities of a possible violation of this section if the tenant has a good-faith belief that a violation has occurred.

(j) In order to stop a vehicle from blocking access or illegally using reserved parking, a peace officer may order a vehicle that is used to violate this subsection (4) to be towed to an impound lot or a vehicle storage location. The peace officer shall verify that the vehicle has not been stolen and report the fact of the tow to the department of revenue in accordance with section 42-4-1804, C.R.S.

(k) The local authority issuing a citation under this section, or under any local ordinance defining a substantially equivalent offense, shall transfer one-half of the fine to the state treasurer, who shall credit the fine to the disabled parking education and enforcement fund created in section 42-1-226, C.R.S.

### **1209. Owner liability for parking violations.**

In addition to any other liability provided for in this Code, the owner of a motor vehicle who is engaged in the business of leasing or renting motor vehicles is liable for payment of a parking violation fine unless the owner of the leased or rented motor vehicle can furnish sufficient evidence that the vehicle was, at the time of the parking violation, in the care, custody,

or control of another person. To avoid liability for payment the owner of the motor vehicle is required, within a reasonable time after notification of the parking violation, to furnish to the prosecutorial division of the appropriate jurisdiction the name and address of the person or company who leased, rented, or otherwise had the care, custody, or control of such vehicle. As a condition to avoid liability for payment of a parking violation, any person or company who leases or rents motor vehicles to another person shall attach to the leasing or rental agreement a notice stating that, pursuant to the requirements of this section, the operator of the vehicle is liable for payment of a parking violation fine incurred when the operator has the care, custody, or control of the motor vehicle. (1) The owner or lessee of any private property available for public use in the unincorporated areas of a county may request in writing that specified areas on such property be designated by the board of county commissioners for use only by authorized vehicles and that said areas, upon acceptance in writing by the board of county commissioners, shall be clearly marked by the owner or lessee with official traffic control devices, as defined in section 42-1-102(64), C.R.S. Such a request shall be a waiver of any objection the owner or lessee may assert concerning enforcement of this section by peace officers of this state, and such officers are hereby authorized and empowered to so enforce this section, provisions of law to the contrary notwithstanding. When the owner or lessee gives written notice to the board of county commissioners that said request is withdrawn, and the owner or lessee removes all traffic control devices, the provisions of this section shall no longer be applicable.

(2) It is unlawful for any person to park any vehicle other than an authorized vehicle in any area designated and marked for such use as provided in this section.

(3) Any person who violates the provisions of subsection (2) of this section is guilty of a class 2 petty offense and, upon conviction thereof, shall be punished by a fine of twenty-five dollars. (2) Notwithstanding any statute, resolution, or ordinance of the state of Colorado, a political subdivision of Colorado, or a governing board of a state institution of higher education, parking in a space without paying the required remuneration is not a violation of the statute, resolution, or ordinance if the conditions specified in subsection (1) of this section are met.

(3) A law or parking enforcement agency shall withdraw any penalty assessment notice or summons and complaint that is deemed not to be a violation under subsection (2) of this section within five business days after being shown proof that the individual cited has a valid remuneration-exempt identifying placard.

The installation operates as a waiver of any objection the owner may assert concerning enforcement of this section by a peace officer. A peace officer may enforce this section on private property.

**1803. Abandonment of motor vehicles - public property.**

(1) (a) No person shall abandon any motor vehicle upon public property. Any sheriff, undersheriff, deputy sheriff, police officer, marshal, Colorado state patrol officer, or agent of the Colorado bureau of investigation who finds a motor vehicle that such officer has reasonable grounds to believe has been abandoned shall require such motor vehicle to be removed or cause the same to be removed and placed in storage in any impound lot designated or maintained by the law enforcement agency employing such officer.

(b) If an operator is used by the responsible law enforcement agency to tow or impound the motor vehicle pursuant to paragraph (a) of this subsection (1), the operator shall be provided with written authorization to possess the motor vehicle on a document that includes, without limitation, the year, make, model, vehicle identification number, and storage location.

(2) Whenever any sheriff, undersheriff, deputy sheriff, police officer, marshal, Colorado state patrol officer, agent of the Colorado bureau of investigation, or agency employee finds a motor vehicle, vehicle, cargo, or debris, attended or unattended, standing upon any portion of a highway right-of-way in such a manner as to constitute an obstruction to traffic or proper highway maintenance, such officer or agency employee is authorized to cause the motor vehicle, vehicle, cargo, or debris to be moved to eliminate any such obstruction; and neither the officer, the agency employee, nor anyone acting under the direction of such officer or employee shall be liable for any damage to such motor vehicle, vehicle, cargo, or debris occasioned by such removal. The removal process is intended to clear the obstruction, but such activity should create as little damage as possible to the vehicle, or cargo, or both. No agency employee shall cause any motor vehicle to be moved unless such employee has obtained approval from a local law enforcement agency of a municipality, county, or city and county, the Colorado bureau of investigation, or the Colorado state patrol.

(3) The operator shall be responsible for removing the motor vehicle and the motor vehicle debris from the site pursuant to this section, but shall not be required to remove or clean up any hazardous or commercial cargo the motor vehicle carried. The commercial carrier shall be responsible for removal or clean-up of the hazardous or commercial cargo.

**1804. Report of abandoned motor vehicles - owner's opportunity to request hearing.**

(1)(a) Upon having an abandoned motor vehicle towed, the responsible law enforcement agency shall ascertain, if possible, whether or not the motor vehicle has been reported stolen, and, if so reported, such agency shall recover and secure the motor vehicle and notify its rightful owner and terminate the abandonment proceedings under this part 18. The responsible law enforcement agency and the towing carrier shall have the right to recover from the owner their reasonable costs and fees for recovering and securing the motor vehicle. Nothing in this section shall be construed to authorize fees for services that were not provided or that were provided by another person or entity.

(b) As soon as possible, but in no event later than ten working days after having an abandoned motor vehicle towed, the responsible law enforcement agency shall report the same to

the department by first-class or certified mail, by personal delivery, or by internet communication. The report shall be on a form prescribed and supplied by the department.

(c) The report shall contain the following information:

(I) The fact of possession, including the date possession was taken, the location of storage of the abandoned motor vehicle and the location from which it was towed, the identity of the responsible law enforcement agency, and the business address, telephone number, and name and signature of a representative from the responsible law enforcement agency;

(II) If applicable, the identity of the operator possessing the abandoned motor vehicle, together with the operator's business address and telephone number and the carrier number assigned by the public utilities commission; and

(III) A description of the abandoned motor vehicle, including the make, model, color, and year, the number, issuing state, and expiration date of the license plate, and the vehicle identification number.

(2) Upon its receipt of a report made under subsection (1) or (6) of this section, the department shall search its records to ascertain the last-known owner of record for the abandoned motor vehicle and any lienholder as those persons are represented in department records. In the event the vehicle is determined by the department not to be registered in the state of Colorado, the report required by this section shall state that no Colorado title record exists regarding the vehicle. Within ten working days after such receipt, the department shall complete its search and shall transmit such report, together with all relevant information, to the responsible law enforcement agency.

(3) The responsible law enforcement agency, upon its receipt of the report required under subsection (2) of this section, shall determine, from all available information and after reasonable inquiry, whether the abandoned motor vehicle has been reported stolen, and, if so reported, such agency shall recover and secure the motor vehicle and notify its rightful owner and terminate the abandonment proceedings under this part 18. The responsible law enforcement agency and the operator shall have the right to recover from the owner their reasonable costs to recover and secure the motor vehicle.

(4) (a) If the responsible law enforcement agency, does not use an operator to store the motor vehicle, the responsible law enforcement agency, within ten working days after the receipt of the report from the department within ten working days after the receipt of the report from the department required in subsection (2) of this section, shall notify by certified mail the owner of record, if ascertained, and any lienholder, if ascertained, of the fact of such report and the claim of any lien under section 1806 and shall send a copy of such notice to the operator. The notice shall contain information that the identified motor vehicle has been reported abandoned to the department, the location of the motor vehicle and the location from which it was towed, and that, unless claimed within thirty calendar days after the date the notice was sent as determined from the postmark on the notice, the motor vehicle is subject to sale.

(b) If the responsible law enforcement agency uses an operator to store the motor vehicle, the responsible law enforcement agency within ten working days after the receipt of the report

from the department required in subsection (2) of this section, shall notify by first class mail the owner of record, if ascertained, and any lienholder, if ascertained, of the fact of the report and the claim of any lien under section 1806. The notice shall contain information that the identified motor vehicle has been reported abandoned to the department, the location of the motor vehicle and the location from where it was towed, and that from the postmark on the notice, the motor vehicle is subject to sale.

(c) The responsible law enforcement agency shall include in the notices sent pursuant to either paragraph (a) or (b) of this subsection (4), a statement informing the owner of record of the opportunity to request a hearing concerning the legality of the towing of the abandoned motor vehicle, and the responsible law enforcement agency to contact for that purpose.

(d) If an owner or lienholder requests a hearing, the owner or lienholder shall make the request in writing to the responsible law enforcement agency within ten days after the notice was sent, as determined by the postmark. Such hearing, if requested, shall be conducted pursuant to the provisions of section 24-4-105, C.R.S., if the responsible law enforcement agency is the Colorado state patrol. If a local political subdivision is the responsible law enforcement agency, such hearing shall be conducted pursuant to local hearing procedures. If it is determined at the hearing that the motor vehicle was illegally towed upon request from a law enforcement agency, all towing charges and storage fees assessed against the vehicle shall be paid by such law enforcement agency.

(5) The department shall maintain department-approved notice forms satisfying the requirements of subsection (4) of this section and shall make them available for use by local law enforcement agencies.

(6) (a) (I) Except as provided in subparagraph (II) of this paragraph (a), an operator or its agent shall, no less than two days, but no more than ten days after a motor vehicle has been towed, determine who the owner is and if there is a lienholder and send a notice by certified mail, return receipt requested, to the last address of the owner, and any lienholder, as determined from the records of the department or from a national search performed by the department

(II) If the department conducts a national title search in accordance with paragraph (b) of subsection (2) of this section, each day elapsing between the department being notified and the department returning information on the motor vehicle as a result of the search does not count against the tow operator's ten-day deadline to contact the motor vehicle's owner or any lienholder. This subparagraph (II) does not affect daily storage fees.

(III) The cost of complying with this paragraph (a) is a cost of towing; except that the total of all costs of complying with this section shall not exceed one hundred fifty dollars. To comply with this subsection (6), the notice to the owner and lienholder must be sent within five days after the operator receives the information from the department and must contain the following information:

(A) The fact of possession, including the date possession was taken, the location of storage of the motor vehicle, and the location from which it was towed;

(B) The identity of the operator possessing the abandoned motor vehicle, together with the operator's business address and telephone number and the carrier number assigned by the public utilities commission; and

(C) A description of the motor vehicle, including the make, model, color, and year and the number, issuing state, and expiration date of the license plate, or any other indicia of the motor vehicle's state of origin.

(b) The operator shall not be entitled to recover any daily storage fees from the day the vehicle is towed until the day the owner and lienholder are notified, unless the operator reasonably attempts to notify the owner and lienholder by the date specified in paragraph (a) of this subsection (6). Sending a notice by certified mail, return receipt requested, to the owner and the lienholder as represented in department records shall be deemed a reasonable attempt to notify the owner and the lienholder. Failure to notify the owner and the lienholder due to the receipt of erroneous information from the department or a failure of the law enforcement agency to comply with this section shall not cause the loss of such storage fees accrued from the date the vehicle is towed until the owner and the lienholder receive such notice.

#### **1805. Appraisal of abandoned motor vehicles - sale.**

(1) (a) Abandoned motor vehicles or motor vehicles abandoned in an impound lot subsequent to a tow from public property shall be appraised by a law enforcement officer or an independent motor vehicle dealer and sold by the responsible law enforcement agency at a public or private sale held not less than thirty days nor more than sixty days after the date the notice required by section 42-4-1804(4), C.R.S., was mailed.

(b) Subject to section 1804, the operator may continue to charge for daily storage fees until the responsible law enforcement agency complies with this section.

(2) If the appraised value of an abandoned motor vehicle sold pursuant to this section is three hundred fifty dollars or less, the sale shall be made only for the purpose of junking, scrapping, or dismantling such motor vehicle, and the purchaser thereof shall not, under any circumstances, be entitled to a Colorado certificate of title. The responsible law enforcement agency making the sale shall cause to be executed and delivered a bill of sale, together with a copy of the report described in section 1804 (2), to the person purchasing such motor vehicle. The bill of sale shall state that the purchaser acquires no right to a certificate of title for such vehicle. The responsible law enforcement agency making the sale shall promptly submit a report of sale, with a copy of the bill of sale, to the department and shall deliver a copy of such report of sale to the purchaser of the motor vehicle. Upon receipt of any report of sale with supporting documents on any sale made pursuant to this subsection (2), the department shall purge the records for such vehicle as provided in section 42-4-1810(1)(b), C.R.S., and shall not issue a new certificate of title for such vehicle. Any certificate of title issued in violation of this subsection (2) shall be void.

(3) If the appraised value of an abandoned motor vehicle sold pursuant to this section is more than three hundred fifty dollars, the sale may be made for any intended use by the

purchaser. The responsible law enforcement agency making the sale shall cause to be executed and delivered a bill of sale, together with a copy of the report described in section 1804 (2), and an application for a Colorado certificate of title signed by a legally authorized representative of the responsible law enforcement agency conducting the sale, to the person purchasing such motor vehicle. The purchaser of the abandoned motor vehicle shall be entitled to a Colorado certificate of title upon application and proof of compliance with the applicable provisions of the "Certificate of Title Act", part 1 of Code 6 of this title, within fourteen days after the sale; except that, if such vehicle is less than five years old, including the current year model, and if the department does not provide the name of an owner of record to the law enforcement agency, the purchaser shall apply for a bonded title and the department shall issue such bonded title upon the applicant meeting the qualifications for such title pursuant to rules promulgated by the department.

(4) (a) Transferring the title of a motor vehicle to an operator to satisfy a debt created pursuant to this part 18 shall not be deemed to be the sale of a motor vehicle.

(b) Nothing in this section requires an operator to be licensed pursuant to Part 1 of article 6 of title 12, C.R.S., for purposes of conducting activities under this part 18.

#### **1806. Liens upon towed motor vehicles.**

(1) Whenever an operator who is registered with the department in accordance with subsection (2) of this section recovers, removes, or stores a motor vehicle upon instructions from any duly authorized law enforcement agency or peace officer who has determined that such motor vehicle is an abandoned motor vehicle, such operator shall have a possessory lien, subject to the provisions of section 1804 (6), upon such motor vehicle and its attached accessories or equipment for all fees for recovering, towing, and storage as authorized in section 1809 (2) (a). Such lien shall be a first and prior lien on the motor vehicle, and such lien shall be satisfied before all other charges against such motor vehicle.

(2) (a) No operator shall have a possessory lien upon a motor vehicle described in subsection (1) of this section unless said operator is registered with the department. Such registration shall include the following information:

(I) The location of the operator's tow business;  
(II) The hours of operation of the operator's tow business;  
(III) The location of the impound lot where vehicles may be claimed by the owner of record; and

(IV) Any information relating to a violation of any provision contained in this part 18 or of any other state law or rule relating to the operation, theft, or transfer of motor vehicles.

(b) The executive director of the department may cancel the registration of any operator if an administrative law judge finds, after affording the operator due notice and an opportunity to be heard, that the operator has violated any of the provisions set forth in this part 18.

#### **1807. Perfection of lien.**

The lien provided for in section 1806 shall be perfected by taking physical possession of the motor vehicle and its attached accessories or equipment and by sending to the department within ten working days after the time possession was taken a notice containing the information required in the report to be made under the provisions of section 1804. In addition, such report shall contain a declaration by the operator that a possessory lien is claimed for all past, present, and future charges, up to the date of redemption, and that the lien is enforceable and may be foreclosed pursuant to the provisions of this part 18.

#### **1808. Foreclosure of lien.**

Any motor vehicle and its attached accessories and equipment or personal property within or attached to such vehicle that are not redeemed by the last known owner of record or lienholder after such owner or lienholder has been sent notice of such lien by the operator or responsible law enforcement agency shall be sold in accordance with the provisions of section 1805.

#### **1809. Proceeds of sale.**

(1) If the sale of any motor vehicle, personal property, and its attached accessories or equipment under the provisions of section 42-4-1805, C.R.S., produces an amount less than or equal to the sum of all charges of the operator who has perfected his or her lien, then the operator shall have a valid claim against the owner for the full amount of such charges, less the amount received upon the sale of such motor vehicle. Failure to register such vehicle in accordance with this title shall constitute a waiver of such owner's right to be notified pursuant to this part 18 for the purposes of foreclosure of the lien pursuant to section 1808. Such charges shall be assessed in the manner provided for in paragraph (a) of subsection (2) of this section.

(2) If the sale of any motor vehicle and its attached accessories or equipment under the provisions of section 1805 produces an amount greater than the sum of all charges of the operator who has perfected his or her lien:

(a) The entity receiving the proceeds shall first satisfy the operator's reasonable fee arising from the sale of the motor vehicle and the cost and fees of towing and storing the abandoned motor vehicle, subject to a maximum charge specified in rules promulgated by the public utilities commission that govern nonconsensual tows by towing carriers.

### **PART E.**

#### **INSTRUCTIONS FOR AMENDING MODEL TRAFFIC CODE PREVIOUSLY ADOPTED BY REFERENCE**

(Based on parts 1 and 2 of article 16 of title 31, as amended, and section 43-2-135 (1)(g), C.R.S.)

##### **1. Amending Ordinance:**

Colorado law provides that whenever a Code is amended by the agency which originally promulgated or adopted it, any municipality which has previously adopted the Code by reference may also adopt the amendments by reference through the same procedure as required for the adoption of the original Code; or an ordinance may be enacted in regular manner, setting forth the entire text of the amendments. The instructions which follow apply to the latter method.

##### **2. Form and Content:**

The form and content of the amending ordinance should conform to the requirements set forth in part 1 of article 16 of title 31, Colorado Revised Statutes, as amended.

Amendments pertaining to sections of the Code which are inapplicable to the municipality should be deleted in the amending ordinance.

##### **3. Public Hearing:**

No hearing is required if an ordinance is enacted setting forth the entire text of the amendments.

##### **4. Publication or Posting:**

Publication or posting requirements for the amending ordinance are the same as for any other ordinance adopted by a City or Town. Publication or posting procedures are described in Part D of this Appendix.

##### **5. Colorado Department of Transportation Approval:**

Colorado Department of Transportation approval of the amended regulations is required before any regulations pertaining to streets which are state highways become effective. This approval will take the form of a written certification signed by the Chief Engineer.

## **6. Effective Date:**

The amending ordinance will take effect upon adoption and compliance with requirements for the mayor's approval or thirty days after publication as provided by law. The procedure in each case is described in item no. 10 Part A of this Appendix.

## **7. Public Record:**

After passage of the amending ordinance the City or Town Clerk should continue to keep on file at least three copies of the adopted code, for public inspection in the manner shown in item no. 11 in Part A of this Appendix.

## **APPENDIX**

### **PART F.**

#### **LISTING OF AMENDMENTS FOR UPDATING PREVIOUS EDITION OF MODEL TRAFFIC CODE ADOPTED BY REFERENCE**

Colorado statutes grant municipalities the option of enacting an ordinance in the regular manner for the purpose of amending a code previously adopted by reference. To accomplish this, however, the entire text of the amendments must be set forth in such an ordinance. Local Governments that desire to follow this procedure instead of adopting the current edition of the Code by reference may obtain a listing and description of all pertinent changes from the Colorado Department of Transportation. The procedure for amending a code directly rather than by reference is set forth in Part E of this Appendix.

Whenever possible, municipalities are urged to adopt the latest edition of the Code by reference instead of resorting to an amending ordinance. This procedure has several important advantages:

- (1) It avoids the problem of relating the various revisions and additions in an amending ordinance to the adopted edition of the Code;
- (2) It enables a city or town to have on record the latest references to applicable State statutes and national recommendations as well as informative and current editorial notes relating to the various traffic regulations; and
- (3) It facilitates the task of drafting the municipal ordinance pertaining to the Code.

**TITLE:**

11:20 am Consideration of a Resolution by the Board of County Commissioners Authorizing the Chair of the Board to Execute All Closing Documents Required to Effect the Acquisition of Real Property (Jackson Street) in Sawpit, Colorado./MOTION

**Presented by:** Ryan Righetti, Road & Bridge Director, Amy Markwell, County Attorney

**Time needed:** 15 mins

**PREPARED BY:**

Amy Markwell, County Attorney, Nancy Hrupcin, Legal Assistant

**RECOMMENDED ACTION/MOTION:**

I move to approve Resolution #2021-10 which authorizes the Chair of the Board to execute all closing documents that may be required in order to acquire the real property currently known as Jackson Street that will become part of County Road 58P and incorporated into the County Road System.

**INTRODUCTION/BACKGROUND:**

Sawpit, as a statutory town, owns the roads and portions of roads that exist within the Town's boundary. This includes Jackson Street/58P that starts at the intersection of Hwy 145 and travels north to its termination at the County owned property.

The Town and County have an Intergovernmental Agreement (IGA) whereby the County has maintained Jackson Street in exchange for the Town giving the County its Highway User Tax Fund monies.

The Town and County also entered into a separate IGA in 2020 after the Colorado Department of Transportation determined there was a need for roadway and drainage improvements along Jackson Street. Pursuant to this IGA, the County was willing to pay the Town's contribution for the improvements and the Town would either reimburse the County or facilitate the transfer of ownership of the ROW. Sawpit Mayor, Mike Kimball, has been working with the owners of Lot 1 & 2 and Town Council for the transfer of ownership of the ROW.

To date, the Town has initiated the survey work needed for the property descriptions and will be paying for the title commitment while the County has initiated the title commitment process and has drafted the deeds. In anticipation of this transfer, we need a BOCC resolution expressing the interest of the BOCC to accept the

transfer of the road and authorizing the Chair to sign any needed documents necessary. The intent is to incorporate this ROW into the County Road System and to continue county maintenance through the Town.

**WHEREAS**, the Town and County entered into an Intergovernmental Agreement in 2020 whereby the County paid the funds to CDOT for the needed improvements and the Town would either reimburse the money or convey a fifty (50) foot ROW in fee or by easement from a point beginning at the intersection of SH 145 and Jackson Street heading north until Jackson Street intersects with and continues east along a portion of Blake Street and Wheeler Avenue to its termination at the Town’s boundary to the County (“Property”); and

**WHEREAS**, the Town of Sawpit has performed the work to survey and obtain the legal descriptions of the 50-foot ROW, has contacted Alexander B. Jones and Kenneth D.
